

Lenovo ThinkPad X201 Tablet

Mobile Productivity for:
**HEALTH CARE
PROFESSIONALS**

Pen, Keyboard and Finger Computing for More Efficient Health Care

WHY YOU NEED IT

As you move to digitize your own organization and/or practice with the latest technology for creating, using and storing Electronic Medical Records, the easy-to-use, reliable and secure ThinkPad X201 Tablet should be at the top of your list.

HOW TO USE IT

- Keep medical records and complete reference books at your fingertips with the lightweight PC you hold like a chart
- Share data in real time and collaborate with colleagues wirelessly for speedier analyses and diagnoses
- Effortlessly enter data using your fingers or digitizer pen. For even greater accuracy, opt for the Enhanced Multitouch panel improved touch sensitivity
- Help protect patient data with advanced security features like optional fingerprint reader, remote disable and Lenovo's innovative ThinkVantage® Client Security Solution

TRUE PORTABILITY FOR DOCTORS AND NURSES ON ROUNDS

- Lightweight, starting at 3.57lbs (1.6 kgs.)
- Up to 8 hrs of Battery Life
- Latest communications technology including WiFi, WWAN/3G and WiMax for constant real-time communication

PROTECT SENSITIVE MEDICAL DATA WITH HACKER-PROOF DATA SECURITY

- Client Security Solution combines hardware and software tools to protect passwords, encryption keys, electronic credentials and of course patient medical records.
- Secure Data disposal™ is an easy-to-use interface to safely and securely deletion of files, making lost or stolen data completely unrecoverable

SAVE ON DAMAGE COSTS AND REPAIR TIME WITH ACCIDENT-PROOF TECHNOLOGY

- Magnesium-alloy frame secures the internal components in the event of an accidental drop.
- Spill-resistant keyboards with special drain holes divert the liquid to the bottom of the system, keeping data safe after accidental spills.
- Active protection system™, an airbag-like sensor freezes the hard disk drive within 500 milliseconds of sensing an impact, making ThinkPad® notebooks five times more secure than other PCs
