

# LOGITECH® BLUETOOTH® MULTI-DEVICE KEYBOARD K480

Available in black and white

## Type on anything

Finally—a desk keyboard for your computer that also works with your tablet and smartphone\*. This unique keyboard with integrated smartphone/tablet cradle makes it a breeze to switch between typing on three different *Bluetooth*® devices.

Imagine typing a long blog on your computer when you get a text from a friend on your smartphone. Now you can reply to your friend with the same comfortable, familiar typing experience you're used to—and go right back to typing your blog—with the simple flick of a dial.

### FEATURES AT A GLANCE

#### Switch easily between devices

Just turn the Easy-Switch dial to switch between typing on three connected *Bluetooth*® wireless devices.

#### Windows and Mac. Android and iOS

You'll find a familiar keyboard layout with all the shortcut keys you use the most, whether you're typing on a Windows®, Mac® or Chrome™ computer, or an Android™ or iOS® tablet or smartphone.

#### Type in comfort

The integrated cradle holds your phone or tablet at just the right angle for you to read while you type\*\*.

### WHAT YOU NEED

- *Bluetooth*® enabled computers or mobile devices which support external keyboards (HID profile). Check device manufacturer for details.
