

## L-85-8511

### 8 Channel 960H DVR with 500GB HDD, HDMI, 8 Night Vision Cameras and Free Night Owl Lite App

Night Owl's L-85-8511 is an advanced 8 Channel 960H DVR/ 8 Camera Security System with a 500GB hard drive that is accessible from your Smartphone, Tablet, PC® or MAC®. With motion activated email alerts and easy Smartphone access, this Night Owl system gives you true 24/7 video security day or night, from any location in the world.

#### Key Features

##### 8 Channel L Series DVR

- Pre-installed 500 GB Hard Drive
- HDMI Output
- 960H Recording Resolution (960 x 480)
- PC and Mac Compatible
- Free Control Management Software
- Motion Activated Recording with Email Alerts
- Free "Night Owl Lite" App for Smartphone integration

##### 8 Indoor/Outdoor Cameras

- 480 TV Lines Resolution
- 11 LEDs for 30 ft. of Night Vision
- 60 ft. of Cable per Camera Included

#### Smartphone Integration

Need a security system that's fully integrated with your Smartphone? There's an App for that!

Unlike most security systems in the marketplace, the L-85-8511 system does not require the user to connect to a PC in order to view videos. The L-85-8511 DVR comes with our free *Night Owl Lite App* for seamless integration with a Smartphone or Tablet PC, so you can view live videos directly on your phone or tablet.

With Night Owl's Smartphone integration you can monitor your security system on the go!

The following Smartphones and Tablet PCs are supported:

##### 3G/4G Smartphones

- iPhones® (iPhone® OS 3.0 or above)
- Android® (Android® Version 1.5 or above)

##### Tablet PCs

- iPads®
- Android® Operating System

#### PC and MAC connectivity with free CMS Software

Not a Tablet or Smartphone user? No problem! The L-85-8511 system is still accessible over the internet via PC® and MAC® computers, for seamless recording and management of video. The included Control Management Software (CMS) for PCs® gives you the ability to monitor multiple locations on one computer screen (the CMS software supports up to 100 different L series security kits, installed at one or multiple locations).

#### Motion Activated Recording

Motion activation allows you to record only when necessary, and makes it easy to find important footage during video playback. This will save you time and conserve hard drive space. Enhanced motion detection settings ensure that false alarms are not triggered. An easy motion detection mask allows you to block out areas with constant movement, such as roads or trees.

### **Motion Activated Live Alerts & Emails**

When a camera detects movement, the L-85-8511 sends you an email alert with an image attachment directly to your Smartphone or Tablet. The enhanced motion detection settings also ensure that false alarms are not triggered. An easy motion detection mask allows you to block out areas with constant movement, such as roads or trees.

### **960H Recording**

5 times larger than CIF and over 33% larger than D1, 960H is the perfect resolution to fit your widescreen TV or monitor. 960H allows you to record at a resolution of 960 by 480 horizontal TV lines, so images are crisper and clearer than both CIF and D1. This new standard was designed to fit the most recent monitors and TV's. With 960H recording and HDMI output, you will clearly see the difference.

### **Simple Point and Click Interface with a 500GB Hard Drive Pre-Installed**

The L-85-8511 DVR comes equipped with a state of the art, easy to use interface. Just point and click to access any of the DVR features. A USB mouse and a remote control are both included.

### **Connects Directly to your TV or Monitor via HDMI**

The L-85-8511 DVR easily connects to your TV for instant viewing and comes equipped with 3 video outputs so you can connect multiple TVs. For your convenience we have included a 6 ft. HDMI cable. In addition to being able to connect directly to your TV, this DVR also comes equipped with VGA & RCA output jacks to connect directly with any computer monitor or TV with a VGA/ RCA input (Cables not included).

## **Cameras**

### **480 TV Line Cameras with Facial Recognition**

The 8 included indoor/outdoor cameras display hi-resolution images day or night with an advanced 480 TVL sensor that provides up to 30 ft. of facial recognition.

### **30 ft. of Night Vision**

The cameras are equipped for night vision up to 30 ft away in complete darkness and produce a clear, crisp image day or night.

## **Customer Support**

### **24/7, 365 Days a Year**

All Night Owl security products come with full technical phone and web support, 24/7, 365 days a year and a Bilingual Help Desk (English and Spanish). If needed, our Help Desk will also remotely access your DVR for setup assistance. \*
