

Full 1080p Network Video Recorder with 2TB HDD & 8 Night Vision 1080p HD IP Cameras

Night Owl's cutting edge NVR10-882 is a next generation Complete IP based video security system ideal for the protection and monitoring of your home or business. The included security cameras capture full 1080p Hi-Definition video recorded by a state of the art Network Video Recorder (NVR). The NVR includes 8 Power Over Ethernet (PoE) ports that can run Video and Power on standard Cat5e/Cat6 cables.

Unlike other security systems Night Owl enables you to maintain your mobile lifestyle by giving you tools that allow you to remotely monitor your home or business with our exclusive Night Owl HD App! Receive motion activated push notifications to your Smart Device when the sensors detect activity.

Secure Homes/Businesses in FULL 1080p HD

Night Owl's NVR10 series offers megapixel HD playback and recording in Full 1080p resolution. The NVR comes equipped with an internal network switch that allows for one cable run for each camera. With PoE technology (Power over Ethernet) the system can utilize a standard Ethernet cable to run Video, Audio and Power on the same cable (audio enabled cameras not included). This provides an efficient and cost effective solution during installation.

Smart Device Integration

Night Owl fits right in with your mobile lifestyle. Remotely monitor your home or business with our exclusive and free Night Owl HD app for IOS and Android devices.

- **Easy Smart Device Setup - Owl Scan**
Enjoy the quick, easy and secure remote setup of your system with our free Night Owl HD app, which utilizes Owl Scan™. Once cameras are installed and functioning, customers are connected in three simple steps:
 1. Download the FREE "Night Owl HD" App
 2. Scan the QR Code using Owl Scan™
 3. Start Viewing your property
- **Private Access to Video:**
User video is never transmitted to our server nor any third party server, EVER. Once setup is complete, your cameras and smartphone operate as peer-to-peer devices.
- **Motion-Activated Recording with Push Notifications**
Don't want to spend your time monitoring an empty room? No problem! Night Owl Security's motion detection allows the system to record only when necessary. You can even set the motion detection area of each individual camera to monitor certain areas. Receive a push notification directly to your Smart Device when motion is detected in the selected zone.

- **Multiple Viewing Options with Digital Zoom:**
Night Owl HD allows the user to create “favorite” screens and view multiple cameras from unlimited locations. Then, digitally zoom into any image during video playback directly from a Smart Device. For example, a business owner can view cash register activity in all four of their sites on one screen. Night Owl enables you to monitor your home and business simultaneously, without switching apps or devices. Talk about being connected!
- **No computer needed for Playback**
Night Owl HD allows you to easily play back video from multiple cameras in one screen on your smart device. Plus, you have the ability to play back up to 6 months of video footage without ever having to touch the NVR again. Our intuitive smart app can even store the video or picture directly onto your smart device.

Professional Network Video Recorder (NVR)

Full 1080p HD Video

NVR10-882 Security System records in full 1080p HD video. The Hi-Definition (1920 x 1080) playback allows for incredible visual clarity. The HD video also provides unprecedented zoom detail –see details like never before!

- **HDMI Connection to TV or Monitor**
The NVR easily connects to multiple TV’s or monitors with the convenience of two video outputs for instant viewing. The NVR is equipped with 1 VGA and 1 HDMI video output, creating broader coverage per square foot for homes and small businesses. The product includes a 6 foot HDMI cable.
- **Night Owl Setup Wizard**
This NVR comes equipped with a state of the art, easy to use icon based interface. All you need to do is point and click to access any of the features of the NVR. For your convenience we have included a wireless USB mouse for flexibility.
- **2 TB Pre-installed Security HDD**
This system records up to 6 months of video with its pre-installed 2 TB security hard drive. If your needs change, you can always expand the system up to a 4TB internal SATA HDD. The hard drive was specifically designed for NVRs. It provides faster read/write times and reliable recording of your video security footage.

1080p Indoor/Outdoor Night Vision IP Cameras

The NVR10 1080p IP cameras are equipped for night vision up to 120 feet, and auto IR cut filter sensors that produce a clear and crisp image day or night. All cameras are designed for use both indoor and outdoor, rain or shine, for an extra layer of safety and deterrence. If there's something out of place at your home or business, it won't escape the watchful eyes of this Night Owl Security System. That's peace of mind, all the time.

- **Wide Viewing Angle**
These Full 1080p HD bullet cameras feature a 70° field of view over the standard 42° view of most cameras, with picture perfect 16:9 wide-angle viewing. This expanded field of view offers a better picture while monitoring larger and distant areas with ease and precision.
- **Vandal-Proof Camera Mounts:**
Night Owl NVR 1080p cameras come equipped with a 3-axis vandal-proof mounting bracket. The cable runs directly through the center of the bracket into the wall or ceiling, preventing exposure that could attract potential intruders.

Professional Installation Services

Need help installing the system? Night Owl's professional installation service has you covered. Contact *InstallerNet* at 1-800-806-5513 to receive a quote and make an appointment. InstallerNet is available to customers located anywhere within the Continental United States. Professional installation is an optional service, not included in the price of the product.

24/7 Support, Available 365 Days a Year

At Night Owl, our goal is to provide an incomparable experience for any technical support required. We provide more assistance than any other security brand by offering bi-lingual (English, Spanish) U.S. based 24/7 phone support, 365 days a year. In addition, we provide extensive "how-to" and training videos on our website at www.nightowlsp.com. We are here for you!

EZ - Warranty Returns

Typically in the market, customers in need of product repairs or replacements are forced to navigate through the intricacies of the warranty process while paying for shipping. At Night Owl, we believe the customer should never have to pay any shipping charges for a faulty or defective product. Our "EZ warranty return process" includes free shipping both ways for any defective parts covered under warranty. There are no hidden fees.
