

GS7121B XCG Guitar Stand

The GS7121B XCG is an outstanding all-purpose stand which packs high-end features into an affordable package – a great choice for the entire guitar collection or showroom! Black scratch resistant finish for years of use.

Features and Specifications:

1. Top yoke supports guitar neck with black velveteen rubber, specially formulated to be safe on all guitar finishes.
2. Heavy-duty rubber band-type neck guard prevents accidental knock-over of guitar.
3. Upper vertical shaft is height adjustable for use with guitars, basses or banjos.
4. Ergonomic locking knob locks shafts in place once desired height is set.
5. Vertical shaft is tilted back 15-degrees, which angles guitar more safely than other stands.
6. Solid steel rod with "keyway" locking system prevents lower yoke from falling out while stand is in use.
7. Lower yoke with "smart" yoke design is balanced to remain in an upright position. Also padded with velveteen foam rubber.
8. Heavy-duty die-cast leg housing locks legs firmly into place.

Also Available: #71035
