

Panasonic®

NI-E200T

PRODUCT HIGHLIGHTS

Panasonic NI-E200T unique “U-Shape” Steam-Dry Iron with circulating steam, Titanium non-stick Soleplate has a curved soleplate that concentrates pressure at the center of the iron, instead of at the tip, so there is less tugging, snagging and minimal wrinkling when ironing. The U-shaped designed helps circulate steam under the soleplate for smoother ironing with up to 25% more steam coverage based on other Panasonic irons. Temperature Ready Indicator Light conveniently displays that the setting is on or off, Dial Temperature Control, 360 Degree Rotating Cord, Spray Mist allows you to direct extra moisture when needed and a “Adjustable Steam” feature depending on the fabric that is being ironed.

Titanium with Non-Stick Coating Curved Soleplate

An iron with a curved soleplate concentrates pressure at the center of the iron, instead of at the tip, so there is less tugging, snagging, and minimal wrinkling.

Spray Mist

The push-button spray mist lets you direct extra moisture where needed.

Adjustable Steam

Three steam settings can be selected high steam for heavier fabrics, low steam for touch-ups, as well as dry for no steam output.
