## STEREO GAMING HEADSET

### Step Up Your Game

- Immersive stereo sound from 40mm speakers
- Speakers swivel for easy storage and stowage
- Noise-canceling mic kills background noise
- Easy-to-reach on-ear volume and mute control
- Superhero-strength cords, joints and materials
- Ultra-comfortable ear cushions and headband

The Plantronics® GameCom® 380 headset delivers immersive, stereo sound with deep bass from 40mm swivel speakers. Easy on-ear controls and noise-canceling mic make this headset your weapon of choice. Superhero-strength cords and joints combined with ultra-comfortable ear cushions and headband let you play for as long as it takes.

#### Key Features

- 3.5 mm audio and headphone plugs for PC compatibility
- Experience immersive, stereo sound with deep bass from 40mm speakers
- Built-in axis spin joints allow the earpods to lay flat for easy storage in-between competitive matches
- Noise-canceling mic kills background noise so your team or opponents can clearly hear your calls
- Easy-to-reach on-ear volume and mute control let you adjust the sound and still keep a hand on the controls
- Superhero-strength cords and joints mean this headset is around for all your battles
- Ultra-comfortable ear cushions and headband make this headset perfect for gaming, and great for watching videos, listening to music, and making PC voice calls
