PL010 Ultimate Personal Jade Massager with Heat

Prosepra's Personal Jade Massager brings the ultimate power of jade and heat with four pairs of kneading heads and four jade stones. The Ultimate Personal Jade Massager can be used on your neck, shoulders, back, thighs, calves and more. Jade is rich in calcium, magnesium and iron—essential minerals for your body. Chinese medicine has long used jade for its healing powers. The kneading mechanism delivers rotating and spot shiatsu massage directly to your muscle tension spots — for instant relief. Each of the eight massage heads contains an infrared heating element. The gentle heat helps loosens tight muscles by encouraging blood flow. You can use one of our automated massage programs or apply the massage manually. Speed and intensity are adjustable. A perfect personal massager for home and office.

Product Specifications
