SIGNATURE FEATURES

Available Colors

Electric Blue

TwinChamber Vacuum System™

Efficient and powerful design catches up to 95.2%* of dust and fine particles.

*Based on internal testing of the average percentage of dust collected, up to 200 grams.

Advanced cleaning power for all floor types

Quickly cleans even large areas with an extra-wide 15-inch design, usable on different floor types.

Large, Easy To Empty Dust Bin

A 2.5-liter bagless dust bin that holds more, so you can clean bigger messes in one shot.

VCC88POH1B

Samsung TwinChamber Vacuum System

TwinChamber Vacuum System™

An innovative chamber design provides up to 95.2%¹ dust separation, so less dust ends up in the air, and in the filter — extending filter life.²

Advanced cleaning power for all floor types

Quickly cleans even large areas with an extra-wide 15-inch design, usable on different floor types.

Large, Easy To Empty Dust Bin

A 2.5-liter bagless dust bin that holds more, so you can clean bigger messes in one shot.

Compact Design for All Floor Types

The compact design makes it easy to store, large wheels make it easy to maneuver on all floor types, from thick carpeting to bare floors. An ergonomic handle provides portability and comfort.

HEPA Filter

An advanced HEPA sealed-gasket filtration system delivers a more hygienic³ clean than conventional filters by removing more fine particles from the air, and trapping more dust and allergens with a removable, washable sponge.
