Hard-to-find made easy

Add an RS232 serial port to your laptop or desktop computer through USB. The ICUSB232V2 1 Port USB to Serial Adapter converts a USB port into an RS232 DB9 serial port to connect to, monitor, and control a serial device. Supporting data transfer rates up to 921.6 Kbps, the USB to serial cable is a convenient and cost-saving solution for providing serial connectivity to devices such as point-of-sale terminals, serial modems, industrial equipment, and a wide variety of other RS232 peripherals. The USB to RS232 converter is easy to install and offers broad operating system compatibility, including Windows 8, Linux and Mac OS, for easy integration into mixed environments. Backed by a StarTech.com 3-year warranty and free lifetime technical support. The StarTech.com Advantage- Install in almost any laptop or desktop computer through broad operating system compatibility, including Windows 8- Communicate efficiently with connected devices with high-speed 921Kbps support- Portable and lightweight, the USB-Powered design requires no additional power adapter
