

4-to-1 USB 2.0 Peripheral Sharing Switch

StarTech ID: USB421HS

The USB421HS 4-to-1 USB Switch Box allows for a USB 2.0 device to be shared with up to 4 different computer systems, without having to disconnect and reconnect the cabling everytime. Push-button controls makes switching between computers quick and easy, with additional keyboard hot-key switching and Windows® based software also available.

With no external power adapter required, and with its compact design, the USB 2.0 data switch takes up very little space and is easily portable. Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Share a USB printer or All-in-One between 4 local computers
- Switch a USB peripheral between 4 computers on a work bench

Features

- Push-button, hot-key controls or software for switching between computers
- Compliant with the USB 2.0 standard, with data transfer rates up to 480Mbps
- Powered directly from the USB port
- Compact desktop form factor design
- Plug-and-Play compatible
