

MMR-77

Handcrank / Emergency Radio

Color

Dark Gray

Seeking news during an emergency, camping in an unknown area or just looking for some helpful information during a crisis the Sangean MMR-77 is at hand reach when you need it.

This multi-powered, multi-purpose radio not only offers reliable, outstanding performance during emergencies but is a fine quality, high performance AM/FM radio simple to use and tune. The dynamo can be wound in either direction making it simple to operate whether your right handed or left handed. The dynamo is cylindrical in shape making it easy to hold while cranking. A few minutes of cranking will bring hours of listening pleasure.

Don't be misled by the compact size of the MMR-77. In addition to its high performance dynamo this emergency radio has quite a sensitive and selective AM/FM receiver offering drift free reception and clear and noise free audio quality and it makes a dandy all around portable radio.

In addition to the emergency dynamo, the MMR-77 can be powered by a set of "AA" batteries or an external 3V power adapter (not included). In addition to the power options, it also provides many extra features, such as an emergency light and an emergency siren.

Sleep a little easier knowing that your Sangean MMR-77 Emergency Radio is there for you during any power outage or emergency.
