Sangean's new anticipated DDR-63 Internet Radio/FM-RDS/Aux In/CD/USB/SD/iPod Cradle All-in-One Tabletop Wooden Cabinet Musical System transforms your listening experience. Featuring more choices, crystal-clear sound, the new DDR-63 all-in-one musical system lets you enjoy your music the way it was meant to be heard. Made for iPods, this system allows you to listen your favorite tunes using the integrated docking station. If you get bored with the songs on your iPod, the DDR-63 has access to more than 15,000 internet stations worldwide via Wi-Fi and Ethernet LAN connections, CD Player, USB/SD Card and FM Tuner letting you listen to your favorite recorded music and talk radio. It also connects to your Home Ethernet or wireless network and streams a wide selection of media formats including MP3, WMA and RAM. The large back-lit LCD that displays the current FM frequency; the touch screen buttons provide full access controls. The tuner also features a memory for ten presets on FM, 99 station presets on Internet Radio and a telescoping antenna for better reception. Wake up to the radio, buzzer, line-in source, or iPod—it's your choice. Also, a sleep timer lets you drift off to your favorite tunes and has snooze function with dual independent alarm settings, each with once, daily, weekdays and weekend modes.

Easy-to-see large, full-dot backlit LCD has brightness, contrast, and display mode adjustments. The DDR-63 enclosure features stereo, full-range speakers with bass reflex for tight, quality audio.

Dial it in with 8 presets EQ as Flat, Jazz, Rock, Classic, Movie, My EQ, News and POP, and get a little more spaciousness with surround sound functions.

Play and control your iPod through the DDR-63 all-in-one musical system. While it's docked, it receives a charge, so it's ready to go when you are. You also can control your iPod's features from the included remote control. The DDR-63 has unparalleled versatility, with real time clock with time sync from the internet connection or RDS. The DDR-63 has a built-in USB jack, an SD slot for file playback as well as a headphone jack for private listening...you can also record and save your favorite music to an MP3 from SD, USB, CD, iPod, FM, and the Internet radio and music player.

You can take advantage of the DDR-63's fantastic functionality and want a bigger sound, simply connect to your home cinema or Hi-Fi system via the optical SPDIF output. You can also attach other devices such as non-iPod MP3 players via the auxiliary input. The DDR-63 has a 3.5mm stereo Line Out socket which is provided on the rear of your sound system to permit the audio signal to be fed to an external amplifier or other audio device.

Sangean is the World's Choice of Listening....
