#### **Product Name**

TekCharge™ MP1580  
Mobile Power Pack & Battery Charger

#### **Category**

Mobile Power

#### **Manufacturer**

Tekkeon, Inc.

#### **Mfg Part Number/Model Numbers**

MP1580

#### **MSRP**

\$24.95

#### **UPC**

1 84661 00028 6

#### **System Requirements**

TekCharge powers and charges hundreds of 5V portable devices. To connect TekCharge to a portable device, the device USB cable, or the appropriate adapter tip is needed. The most common adapter tips are included, with additional tips available.

### **Brief Description**

TekCharge™ MP1580 takes advantage of AA batteries (alkaline or rechargeable NiMH or lithium batteries) to provide emergency power to mobile phones, smart phones, iPod/iPhone, MP3 players, PDAs, digital camcorders, eBooks, GPS and more. This small mobile charger includes a voltage regulator so it won't harm your device or its battery. As an added bonus, TekCharge MP1580 doubles as a battery charger, so you can charge your rechargeable NiMH or lithium batteries as needed.

### **Full Description**

TekCharge™ MP1580 takes advantage of AA batteries (alkaline or rechargeable NiMH or lithium batteries) to provide emergency power to mobile phones, smart phones, iPod/iPhone, MP3 players, PDAs, digital camcorders, eBooks, GPS and more. This small mobile charger includes a voltage regulator so it won't harm your device or its battery.

TekCharge connects to your device in two ways: you can use an adapter to connect to your device, or you can use your USB device cable, bypassing the need for an extra adapter. Micro USB and mini USB adapters are included for most mobile phone and smart phone models. These same adapters also may work with your eBooks, MP3 players, PDAs, portable media players and other small devices. If the extra adapter you need isn't in the package, additional adapters are available from Tekkeon for a nominal fee.

As an added bonus, TekCharge MP1580 doubles as a battery charger, so you can charge your rechargeable NiMH or lithium batteries as needed.

## Features

- Universal to power and charge hundreds of portable devices:

Portable Device	Power on the Go
Mobile phones	12 hours of talk time
Smart phones	8 hours of talk time
PDA's	5 hours
Portable media players	5 hours of playback
Bluetooth headsets	50 hours of talk time
MP3 players	28 hours of audio playback
iPhone	28 hours of audio playback, 8 hours of video playback
iPod touch	32 hours of audio playback, 11 hours of video playback
iPod classic	118 hours of audio playback, 20 hours of video playback

\*Hours shown are approximate and will vary depending on connected device.

- Provides a whopping 1000 mA output to charge a wider range of products
- Visual indicators identify power capacity level and status
- Small and lightweight so it's comfortable to carry
- Uses rechargeable NiMH AA batteries, or non-rechargeable alkaline or lithium AA batteries
- Uses USB to charge up to two pair of rechargeable NiMH or lithium AA batteries
- Regulates output voltage
- Includes charging circuitry that will not overcharge your rechargeable AA batteries
- Connects to any USB device cable

## Technical Specifications

- Weighs just 4.5 oz (with batteries)
- Size is 2.5" (W) x 3.2" (L) x .7" (D)
- Uses two or four rechargeable NimH or lithium AA batteries, or non-rechargeable alkaline AA batteries (not included)
