

TekCharge™

MOBILE POWER PACK & BATTERY CHARGER

MP1580

TekCharge MP1580 takes advantage of AA batteries (alkaline, or rechargeable NiMH or lithium batteries) to provide emergency power to mobile phones, smart phones, iPod/iPhone, MP3 players, PDAs, digital camcorders, eBooks, GPS and more. This small mobile charger includes a voltage regulator so it won't harm your device or its battery.

TekCharge connects to your device in two ways: you can use an adapter to connect to your device, or you can use your USB device cable, bypassing the need for an extra adapter. Micro USB and mini USB adapters are included for most mobile phone and smart phone models. These same adapters also may work with your eBooks, MP3 players, PDAs, portable media players and other small devices. If the extra adapter you need isn't in the package, additional adapters are available from Tekkeon for a nominal fee.

As an added bonus, TekCharge MP1580 doubles as a battery charger, so you can charge your rechargeable NiMH or lithium batteries as needed.

Power on the Go!

- For mobile phones, smart phones, iPhone, iPod, MP3, and more
- Connects to any USB device cable
- Uses AA alkaline or rechargeable batteries
- Get up to 12 hours talk time

EMERGENCY POWER

- Micro USB adapter tip
- Mini USB adapter tip

Use Device USB Cable

Use your own USB device cable to charge your device.

Emergency Mobile Power

DEVICE	EXTRA POWER
Mobile phones	12 hours of talk time
Smart phones	8 hours of talk time
PDAs	5 hours
Portable media players	5 hours of playback
Bluetooth headsets	50 hours of talk time
MP3 players	28 hours of audio playback
iPhone	28 hours of audio playback 8 hours of video playback
iPod classic 80GB	118 hours of audio playback 20 hours of video playback
iPod touch	32 hours of audio playback 11 hours of video playback

Approximate hours shown are for one set of four AA batteries, and will vary depending on connected device.

TekCharge MP1580 powers and charges the internal batteries of most devices requiring 5V. TekCharge MP1580 also can charge two or four rechargeable AA batteries when connected to a USB port for power.
