

# TP-LINK TL-ANT24EC5S

What happens when your wireless signal is too weak to connect to an access point in another building and you want to better position your wireless antenna in a higher or wider place to get a better signal?

The antenna extension cable is the answer to your problems. There is no need to move your access point or wireless router, which may sometimes be immovable, from place to place. With the several kind of low-loss extension cable, you will have more flexibility to move your antenna in order to maximize your wireless performance.

**Highlights:**

- Easy and quick deployment into suitable WLAN environment
- 5 meters in length allows you to relocate your antenna to a optimal position to maximize the wireless performance
- Features higher performance low loss CFD-200 cable with excellent flexibility
- RP-SMA Male to Female connector, works with RP-SMA type antennas

Wireless Frequency Range	DC ~ 3GHz
Shipping box quantity	30
Shipping Box Width	48 cm
Shipping Box Depth	60 cm
Shipping Box Height	31.5 cm
Shipping Box Weight	10.05 kg
Unit Brutto Volume	0.003024 cubm
Unit Net Weight	0.295 kg
Unit Gross Weight	0.335 kg
Parameter Level	3
