

APD04US | Targus Mobile Charger for iPad®

The Targus Mobile Charger for iPad allows you to maximize your time on the road by keeping your Apple devices powered in the car. The DC auto charger can charge your iPad, iPhone or iPod via your car's 12V outlet. Small and compact, this charger takes up very little space and comes in handy when you have forgotten to charge your devices at home. Users can even plug in their USB charging cables for other devices to power or charge those items.

Functionality: DC auto adapter to charge iPad, iPhone and iPod; includes an USB to iPad 30pin chargesync cable.

Construction: Small, lightweight and convenient

RoHS Compliant: Yes
