

APD05US | Targus Dual Mobile Charger for iPad®

The Targus Dual Mobile Charger for iPad allows you to maximize your time on the road by keeping your Apple devices powered in the car. The DC auto charger can charge two devices at the same time including your iPad, iPhone or iPod via your car's 12V outlet. Small and compact, this charger takes up very little space and comes in handy when you have forgotten to charge your devices at home or need more power on the go. Users can even plug in their other USB charging cables to power or charge those items as well.

Functionality: DC auto adapter to charge an iPad, iPhone and iPod; includes 2 USB to iPad 30pin charge/sync cables; allows you to charge an iPad and iPhone or iPod at once; Compatible with other devices that charge via USB with the appropriate USB cable for that device

Construction: Small, lightweight and convenient

RoHS Compliant: Yes
