#### Description

Tripp Lite's 100 ft, High Definition DVI Dual Link TMDS cable delivers the high performance and high bandwidth needed for today's digital video displays. 24AWG wire and gold-plated contacts ensure excellent conductivity, while double shielding (foil and braid) provides maximum EMI/RFI protection. Use in conjunction with DVI video cards that are specified as Dual Link. Both DVI connectors are molded, have integral strain relief for long life reliability, and ferrite collars to drain off extraneous electrical interference. In most applications, a signal booster ([B120-000](#)) will need to be used with this cable to ensure a signal strong enough for your display.
