

Model #: P941-19I

Computer Cable, SATA - 19-in. Serial ATA (SATA) Signal Cable 7Pin/7Pin, Straight/Up

Highlights

Connect your high-speed Serial ATA device to a Serial ATA controller Support data transfer rates of up to 3.0 Gbps Cable is shielded to protect against EMI/RFI

Description

Tripp Lite expands its line of hard drive cables with the introduction of our new line of serial ATA cables. The signal cables connect any high speed Serial ATA device to a Serial ATA controller. Serial ATA delivers two significant benefits: it support much higher data transfer rates (up to 3.0 Gbps...backward compatible to 1.5Gbps) and the narrow cable design helps improve internal air flow. Perfect for the desktop or server that has multiple drives. These cables feature 7-pin straight/7-pin right-angle key up female connectors and offer easy installation. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

System Requirements

Serial ATA device Serial ATA controller

Package Includes

19-in. Serial ATA (SATA) Signal Cable 7Pin/7Pin, Straight/Up

Features

Connect your high-speed Serial ATA device to a Serial ATA controller

Support data transfer rates of up to 3.0 Gbps

Narrow cables design: 1) simplifies cable routing and installation 2) improves air flow within CPU (no more big ribbons blocking air movement)3) right-angle design for tight spaces

Meets Serial ATA 1.0 standards, including Errata 029

Cable is shielded to protect against EMI/RFI

Specifications
