

In most applications, a signal booster ([B122-000-60](#)) should be used with this cable to ensure a signal strong enough for your display. An alternate solution is to use a Tripp Lite HDMI over Cat5 Extender ([B126-1A1](#)) in place of a 50 ft. HDMI cable and signal booster.

High Speed HDMI Cable, Digital Video with Audio (M/M) 50-ft

MODEL NUMBER: **P568-050**

Highlights

- Premium double-shielded digital audio/video cable
- Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter
- Gold-plated connectors provide optimal signal transfer
- Bandwidth up to 10.2 Gbps - Full 1080p resolution
- High Speed HDMI and HDCP compliant

Package Includes

- 50-ft. High Speed HDMI Gold Cable

Description

Tripp Lite's 50-ft. High Speed HDMI (High-Definition Multimedia Interface) Gold Cable allows interconnection between digital display devices, such as DTV's (Digital Television), Plasma displays, LCD TV's and projectors, to Digital source devices, such as Digital Set-Top boxes, Blu-Ray players and AV receivers. Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter. HDMI assures that the best audio/video signal is always sent from the source (HDTV signal, Blu-Ray Player) to the display (Projection Television, LCD, Plasma, etc.). It does this by allowing uncompressed video and multi-channel audio data to be input to the display device through a single cable. An HDMI connection allows input at high rates of speed, up to 10.2 Gbps. In most applications, a signal booster ([B122-000-60](#)) will need to be used with this cable to ensure a signal strong enough for your display.

Features

- Creates a pure digital connection between HDMI-enabled HDTV display devices and HDMI-enabled digital video sources
- Supports iPad2 Video Mirroring when used with Apple Digital AV Adapter
- Gold-plated connectors provide optimal signal transfer
- Premium double-shielded cable protects against outside noise (EMI/RFI)
- Impedance-matched twisted-pair construction reduces cross-talk and interference
- Bandwidth up to 10.2 Gbps - Full 1080p resolution
- In most applications, a signal booster ([B122-000-60](#)) will need to be used with this cable to ensure a signal strong enough for your display

Specifications

OVERVIEW	
Intended Application	Home Theater/AV
Cable Type	HDMI

Model Type	HDMI
INPUT
