The WD Ae hard drive delivers cost-effective, high capacity disk-layer storage for cold data archive systems. These drives are built with features that address the unique requirements of cold data archiving, including WD's innovative Progressive Capacity, an energy-efficient design, long life cycle TCO and competitive dollars per gigabyte.

### Main specifications:

#### Hard drive

|                                     |                |
|-------------------------------------|----------------|
| Hard drive capacity:                | 6000 GB        |
| Hard drive interface:               | Serial ATA III |
| Hard drive size:                    | 3.5 "          |
| Drive device, buffer size:          | 64 MB          |
| Device type:                        | HDD            |
| Hard drive interface transfer rate: | 6 Gbit/s       |
| Mean time between failures (MTBF):  | 500000 h       |
| RoHS compliance:                    | Y              |

#### Power

|                           |       |
|---------------------------|-------|
| Power consumption (idle): | 4.8 W |
|---------------------------|-------|

#### Operational conditions

|                              |             |
|------------------------------|-------------|
| Operating temperature (T-T): | 10 - 50 °C  |
| Storage temperature (T-T):   | -40 - 70 °C |
| Non-operating shock:         | 300 G       |

#### Weight & dimensions

|         |          |
|---------|----------|
| Width:  | 101.6 mm |
| Height: | 26.1 mm  |
| Depth:  | 147 mm   |
| Weight: | 720 g    |

#### Other features

|                               |        |
|-------------------------------|--------|
| Cartridge load/Unload cycles: | 300000 |
|-------------------------------|--------|
