- Multi-Gesture Touchpad
- 4-cell Li-ion Battery (2500 mAh), up to 5-hours battery life
- 4.85 lbs. | 2.2 kg. (system unit only)

Selling Points

1 Hands on Navigation with Touch

Experience a new type of navigation on the stunning **14" Widescreen 10-point multi-touch Display.** The frameless edge-to-edge design keeps this Notebook super slim and provides a large area for touch interactions as well as a full web browsing experience.

10 Points Multi-Touch Display makes your digital life more intuitive, more electric, more fun! Experience efficiency hands-on as you open and close programs, browse online, and breeze through photo albums—using nothing but your fingers. Simply scroll, flick, pinch and rotate motions to accomplish your tasks quickly.

Windows 8 has been re-imagined to be all about you. Put what matters most right on your Start screen, and get instant access to your people, apps, sites and more, so you can spend less time searching and more time doing. And with a combination of the touch display and the new Windows 8 you get a fast and fluid working environment. Quickly zoom in or out to customize your view and group, label, and rearrange apps on your Start screen.

2 Slender, yet Full-Featured

At less than **1" thin**, the V5 Series Notebook is slender and light while still housing a built-in **slim DVD drive,** making it 30% slimmer then traditional PCs that feature DVD drives. The new touchpad with large working area and enhanced sensitivity makes for a better working experience.

The **2nd Generation Intel® Core™ i3 Processor** delivers the power you need, in the slim design you want. Fly between movies, photos, shopping, and more with stunning visuals and visibly smart performance and with **Dolby® Advanced Audio® v2** this PC delivers a crisp, clear cinematic surround sound experience over its built-in speakers.

The new **USB 3.0** works up to 10x faster than older USB 2.0--and you can even charge your USB devices when your laptop is asleep, hibernating or off!

Backlit Keyboard adds a cool subtle glow to your typing experience that not only looks good, but helps guide your fingers while typing in dimly lit areas.

When the 14" fails to satiate your visual appetite, the **HDMI™ output** lets you pipe HD content and high quality audio to an external monitor or big screen HDTV via a single cable.

3 Instant Communication

Acer Instant Connect gets you to the web in 4x faster than conventional notebooks by remembering previous Wi-Fi spots you've visited! So when they're in range, it instantly connects you to the Internet- no waiting required!

Have crystal-clear video chats with friends and family and snap still pictures, all in HD, with the advanced **HD Webcam**. Its high pixel density delivers amazing image quality in 24 frames per sec.

Built-in 802.11b/g/n Wireless provides the freedom to road to hot spots while **Bluetooth® technology** lets your wirelessly connect to other Bluetooth-enabled devices such as phones, printers and hand-held organizers, eliminating the need for a tangled wire.

With **AcerCloud** your PCs storage IS your Cloud storage with wireless access to your photos, music, videos and documents -- wherever you are, on any PC, on all your devices!

SocialJogger lets you stay in touch with friends and the latest buzz by placing Facebook® and Twitter in one place! Check updates in a single glance and scroll through endless feeds with the innovative jog dial.

(1) Overall system performance is based on several PC attributes. GHZ, processor clock speed, is one of the attributes.

(2) Shared system memory may be allocated to support integrated graphics depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of shared system memory utilized by the graphics solution and resources required by the operating environment.

(3) Shared system memory may be allocated to support integrated graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of dedicated and shared system memory utilized by the graphics solution and resources required by the operating environment.

(4) 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Acer eRecovery Management utilizes up to 8 GB (10 GB with Microsoft® Office Starter 2010 Trial) of the stated hard disk capacity as dedicated backup space.

(5) Battery life varies depending on product specifications, computer settings and applications or features launched.

(6) For a free copy of the standard limited warranty end users should see a reseller where Acer products are sold or write to Acer America Corporation, Warranty Department, P.O. Box 6137, Temple, TX 76503. TFT displays commonly exhibit a small number of discolored dots, so called "nonconforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect and, as such, is not covered by the limited warranty or by the upgrade programs. For International travelers warranty Valid only in countries where Acer has an authorized repair facility. For a list of those countries go to http://global.acer.com/support/itw.htm. or call 800 816 2237. Services and response times may vary in countries outside the U.S. and Canada

(7) Internet access required. First 60 days of live updates included, subscriptions required post 60 days.

(8) Microsoft Office Trial included. After or during the 60-day trial, purchase an Office Product Key to activate one of the following Office suites preloaded on this PC: Office Home and Student, Office Home and Business, Office Professional

(9) Additional fees and conditions may apply
