With the **Dell™ Personal Inkjet Printer J740**, every home and small office can enjoy great value and performance in a color inkjet printer with borderless photo capability. The compact J740 prints up to 18 pages per minute (ppm) in black and up to 14 ppm in color for fast, affordable productivity.

This personal inkjet printer comes with Dell Picture Studio software for editing and printing photos and a 4800x1200-dpi resolution to ensure stunning results. The J740 gives you the capability to print true borderless photos in a variety of sizes and media — you are not limited to a 4"x 6" photo size or required to use perforated paper. It lets you print borderless photos in sizes and media ranging from 4" x 6" to 8.5" x 11". For regular printing, the versatile J740 accepts media sizes ranging from 3" x 5" to 8.5" x 17". Moreover, Dell Ink Optimization Technology™ combines the speed of a fast inkjet printer with the exceptional print quality of a photo printer in one compact device.

The J740 is also color matched, designed and tested to work with your Dell systems. It also uses the Dell Ink Management System™, which monitors printer ink levels and proactively notifies you before you run out of ink. It comes with Dell's industry-recognized service and support including 24x7 toll-free technical phone support and one-year Next-Business-Day Advanced Exchange Service<sup>1</sup>.
