TH-PT8

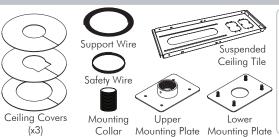

Installation Instructions telehook

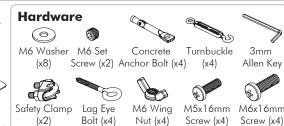

Projector | Suspended Ceiling Tile 8"

Component Checklist

Tools Required:

Phillips head screwdriver Wire cutters Power drill 6mm (1/4") drill bit 6mm (1/4") masonry drill bit Claw hammer Jigsaw/Hole cutter Spirit level

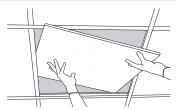

IMPORTANT INFORMATION:

- ! IMPORTANT Install Telehook Projector Suspended Ceiling Tile 8" as per Installation Instructions.
- ! Compatible with 1.5" NPT Pole Mounts, Atdec Pole Mount (TH-WH-PJ-CM), Atdec Flush Mount (TH-WH-PJ-FM), Atdec ProAv Projector Ceiling Mount (TH-PF) and Atdec pole accessories (TH-PPA-18-25, TH-PPA-24-48 & TH-PPE-24).
- ! Maximum weight capacity 22.7kg (50lbs).
- ! The manufacturer accepts no responsibility for incorrect installation.

Step 1. Check Components

Check you have received all parts against the Component Checklist and Hardware above.

Step 2. Remove Existing Ceiling Tile

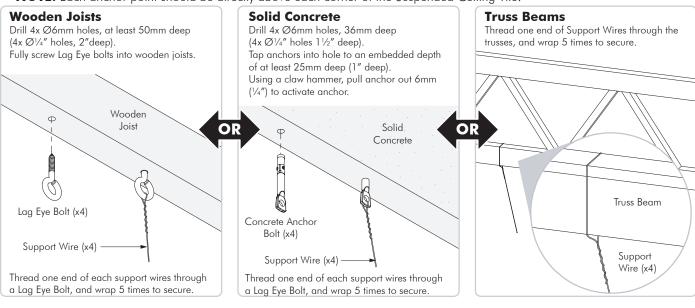

Remove existing ceiling tile from ceiling grid where the product is going to be installed.

NOTE: Keep this ceiling tile for later in the installation.

TIP: Also temporarily remove an adjacent ceiling tile to allow easy access to the product during installation.

Step 3. Fix Anchors to True Ceiling

Uncoil Support Wire and cut into 4 equal lengths. Select the anchoring method appropriate to your ceiling (see below). **NOTE:** Each anchor point should be directly above each corner of the Suspended Ceiling Tile.

Step 4. Attach Turnbuckles onto Support Wires

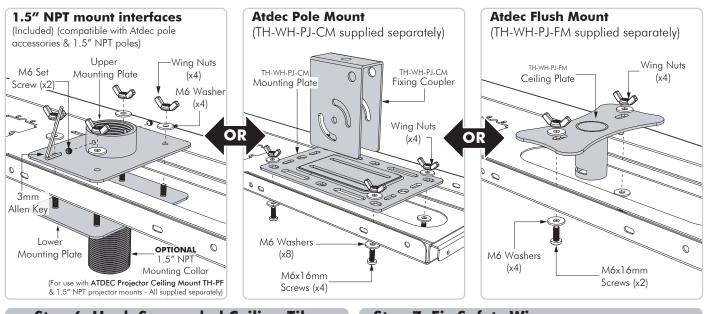

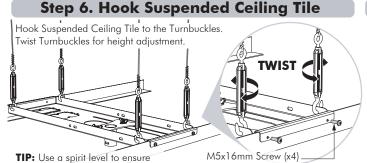

Loop each dangling Support Wire through a Turnbuckle, and wrap 5 times to secure.

Make sure that the position of the x4 Turnbuckles are approximately at the same height.

TIP: When mounting 1.5" NPT pole mounts or flush mounts the turnbuckle hooks should be level with the top of ceiling grid. When mounting an Atdec pole mount (TH-WH-PJ-CM) the hooks should be approximately 130mm (5") above the top of the ceiling grid.

Step 5. Assemble Projector Mount Interface onto Suspended Ceiling Plate

the Suspended Ceiling Tile is level.

Step 7. Fix Safety Wire

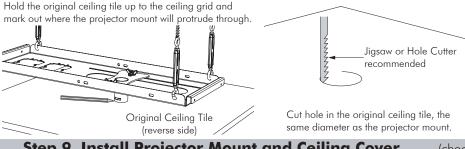

Thread one end of the Safety Wire through a Lag Eye Bolt, Concrete Anchor, or Truss and clamp using Safety Clamp.

Thread other end of Safety Wire through the Suspended Ceiling Tile and clamp using Safety Clamp.

Step 8. Cut out Hole in Original Ceiling Tile

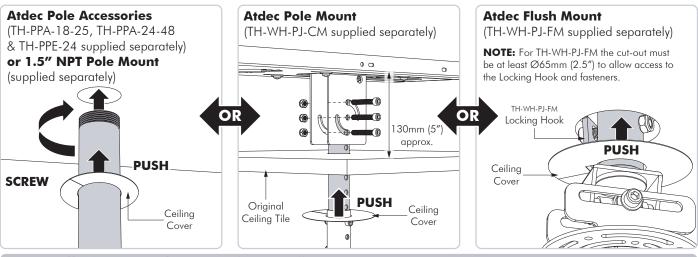

optional

Step 9. Install Projector Mount and Ceiling Cover

(choose Ceiling Cover to suit projector mount)

Installation Complete - Ready to install Projector
