## ***AMMO, a winner of The Innovations 2009 Design and Engineering Awards***

In Win has always been known for its outstanding innovative product designs, and to make an immediate impact on the gaming market, In Win has introduced a complete line of military themed products ranging from chassis, power supply to external HDD enclosures. Ammo's anti-vibration, and anti-shock ammunition clip design with RFID security, has received many praises from the media all over the world. Now with this Innovation award from CES, Ammo is definitely "one design ahead of its competitors". (Innovations Honorees list: <http://www.cesweb.org/awards/innovations/2009honorees.asp?category=905077>)

### **About CES**

The International CES is produced by the Consumer Electronics Association (CEA), the preeminent trade association promoting growth in the consumer technology industry. CEA represents more than 2,200 corporate members involved in the design, development, manufacturing, distribution and integration of consumer electronics products. With more than four decades of success, the International CES reaches across global markets, connects the industry and enables CE innovations to grow and thrive.
