Matrix – For modern gamers!

Home PC case

PC gamers looking for thermal and expandability solutions in full towers usually find themselves trying to fill the extra space. IN WIN Matrix eliminates this problem with its simple and space saving design, with just 12.5L in volume, it is compatible with current standard components as well as video cards, network cards, TV tuner cards, etc and up to 4 sets of independent expansion slots. Also, the new PPCT structure design overcomes traditional thermal issues by integrating high efficiency, advanced thermal solution and superior acoustic performance altogether.

360 Degrees Visual Effect

Complex features are all hidden underneath this clean line of design, creating a non-obstructive 360 visual effect.

Smart Cable Management

The brilliant back panel design enables wires to be concealed inside the chassis. It provides a clean contemporary look with a smart cable management feature.

Partition Plate Cooling Technology (PPCT)

By separating the CPU fan from the heat sink to reduce back draft, Partition Plate Cooling Technology (PPCT) efficiently streamlines the airflow in a unilateral direction to provide an exceptional thermal performance.

Volume VS. Size

With less than 12.5L volume size, IN WIN Matrix's thermal and acoustic solutions outperform larger cases. Its superior design allows the Matrix to accommodate all exiting standard components and support up to 4 FULL height expansion cards.

Excellent Thermal Solution

Efficient air flow design and a 6cm fan for the hard drive keeps the system stable and performing at the peak of its capability.

Removable Mesh

The side panel with thermal vents has a removable mesh that prevents dust from clogging into the power supply.

About In Win

IN WIN Development Inc., an ISO 9001 manufacturer of professional computer chassis, server chassis, power supplies and digital storage devices, is the leading provider of enclosure solutions to system integrators worldwide. Founded in 1986, IN-WIN provides high quality product that conform to all safety regulations, as well as unsurpassed customer service. Our slogan "Contemporary and Innovative" serves as the foundation of not only our product development but also our attitudes in serving and catering to our strategic partner's wishes. We take the "im" out of "impossible"...

...A brand without persistence is only a name.
