

**SILVERSTONE**<sup>®</sup>  
Designing Inspiration

# SUGO SERIES

Redefining performance  
in small form factor computing

# SG10

## SPECIAL FEATURES

- Support graphics cards of any length
- Support full tower CPU coolers
- Support Strider Plus PSUs up to 1000W
- Mandatory cable routing design
- Ample fan slots for maximum airflow
- Cleanly styled aluminum front panel

## SG10

### SPECIFICATIONS

Model	SST-SG10B (black)
Material	Aluminum front panel, steel body
Motherboard	Micro ATX, Mini-DTX, Mini-ITX
Drive Bay	Exposed 12.7mm/9.5mm slim optical x 1 Internal 3.5" x 2 * , 2.5" x 4*
Cooling System	Rear 1 x 120mm 1200rpm 22dBA Top 180mm Air Penetrator 600/900/1200rpm, 17/25/34dBA (backward compatible with 140mm) Left 1 x 120mm 1200rpm 22dBA (backward compatible with 92mm) 2 x 80/92mm fan slot Right 80mm fan slot
Expansion Slot	4
Front I/O Port	USB 3.0 x 2 audio x 1 MIC x 1
Power Supply	Optional standard PS2 (ATX) up to 180mm*
Expansion Card	Compatible up to 13.3" long, width restriction-5.70"
Net Weight	5.8 kg
Extra	support two Kensington locks
Dimension	354mm (D) x 220mm (W) x 295mm (H), 23 liters

\* If you intend to utilize all hard drive slots, please remove all unused power supply cables. These unused cables may cause problem with the installation. SSDs are highly recommended in place of hard drives.

\* Maximum length for PSU is 180mm, we recommend 160mm due to varying connector locations on PSUs and the unique structure of SG10. We do not promise that all retail PSUs on the market can be installed in the SG10. Please refer the guides provided in this manual to select your PSU.

Redefining performance in small form factor computing

## INTRODUCTION

To further increase the appeal of the groundbreaking Sugo SG09, SilverStone engineers crafted a follow-up version in the SG10. The front panel now utilizes a 7mm thick aluminum with a fine filter hidden beneath this has tremendously increased its simple and elegant appearance. Designed as the ultimate SFF with only 23liters, the SG10 retained all of SG09's features and still able to accommodate standard size components such as ATX power supply, Micro-ATX motherboard, full tower CPU cooler and dual 13.3" high-end graphic cards. For those looking to challenge their own PC building skills in return for a superbly packaged machine that has uncompromised performance and is portable, the Sugo SG10 is the one to get.

## RECOMMENDED PRODUCTS

### Sugo Pack

Get a Sugo Pack to conveniently take your SG10 anywhere you go

### SST-ST1000-P

Silent and quality 1000W PSU with 80 PLUS Silver efficiency to reduce wasted heat and save on electricity

### PP05

Combine PP05 with a compatible Strider series PSU for the ultimate SFF power source

### HE01

Twin tower cooler for maximum cooling performance
