

## Logitech® **QuickCam® for Notebooks**

Makes video calling simple and fun !

- Rich, vibrant colours video and photos at 640x480 VGA resolution
- Crystal-clear, headset-free conversations with the integrated mic
- Works seamlessly with leading instant messaging applications
- Downloadable Fun Filters add fun to photos and online chats
- Taking stills is fast and easy with the snapshot button
- Windows Vista™, Windows® XP or 2000
- Documentation in English
- 2-year guarantee
- Full product support

Logitech's affordable QuickCam® for Notebooks makes video calling simple and fun. The integrated microphone with RightSound™ technology eliminates echo and reduces background noise so that you can enjoy chatting without a headset. Your videos and photos will be rich and vibrant with a 640x480 VGA resolution. The manual focus ring provides more control over close-up images and the snapshot button makes taking stills fast and easy. QuickCam for Notebooks works with all leading instant messaging and video calling applications. Includes Fun Filters to add video effects such as snowflakes or rain to your video chats or photos.
