MICROLINE® 320/321 Turbo Series

Legendary reliability, expanded head gap, and zero-tear capability for dedicated forms printing

The MICROLINE® 320/321 Turbo builds on the OKI Printing Solutions heritage of rugged reliability. This 9-pin printer is engineered to be tough enough for dedicated printing in the most demanding point-of-sale, automation and utility applications. It can easily run twice as long as most printers in its class. And it's economical enough to put wherever you need data on the spot.

Getting the job done, day in and day out

The ML320/321 Turbo puts the "work" in workstations for financial departments, wholesale or retail sales counters, even for harsh or warehouse or manufacturing environments. Its relentless performance comes from the design of its printhead; a light, strong, efficient motor; the longlasting rack-and-pinion drive system; and a protective, impact-resistant chassis.

The printer can accommodate multipart forms and stock that are up to twice as thick as those that fit our nearest competitor.

The printhead delivers a stronger punch—right to the last page of a 6-part form.

A patented optical sensor accurately positions the printhead for precise output, and the auto-tear feature accurately positions your continuous forms for a clean tear right at the perforation—eliminating wasted forms.

Accommodating your growing business

The ML320/321 Turbo can meet your needs today and in the future. It's exactly the same size as the legendary ML320/321 and it's compatible with virtually all custom and off-the-shelf software, making it the perfect replacement.

MICROLINE 320/321 Turbo Series: all the reliability and high performance you need.

Highlights:

- Built rugged and reliable in the OKI Printing Solutions tradition
- Designed for point-of-sale, automation and utility applications
- Handles paper stock twice as thick as the competition can
- Zero-tear and auto-park help to eliminate wasted forms

Target Markets:

- Automation
- Office Workstations
- Warehouse or Manufacturing
- Financial Departments

MICROLINE® 320/321 Turbo Series

ML320/321 Turbo/n: for workgroups or small businesses

The OKI Printing Solutions answer for true remote management is the ML320/321 Turbo/n. It comes with a high-speed OkiLAN® 6120e 10/100 Base-T Internal Print Server— pre-installed and ready to perform—so that all of the printer's advantages can be enjoyed across your company network and accessed by users via the Internet.

Great features mean great benefits for you

True Remote Management Capability – provides IT managers the ability to

- Manage corporate printer assets remotely; check printer status and change settings through the PrintSuperVision utility or from anywhere in the world via a Web browser
- Provide support to end-users quickly, without having to go to printer site

Automatic outbound e-mail alerts

- Alerts up to 4 people via e-mail, anywhere in the world, of printer/network problems: Paper out, Paper jam, Door open
- Different alerts can be sent to different people
- 10/100 Base-T Ethernet connectivity; up to 470 Kbps data transfer rate
- No performance bottlenecks only network traffic limits throughput

Internal integrated solution

- Network connectivity without changing printer's physical location
- Enables bottom paper feed, custom cabinets; minimizes "cable clutter"

Full Windows® support

 Works with Windows® Vista™, XP, 2000/ME, 98 and NT® 40

Full Novell® support

- Including NDS®, NDPS, NLSP; IPX/SPX protocols
- Works in Novell environments

UNIX support

 Java-based utility lets printer be "discovered", installed and managed

HP® JetAdmin® and Web JetAdmin® compatible

• Print server/printer can be "discovered" and managed

Enhanced Web page – 10 "most recent" print job history

Facilitates job tracking

Internet printing

 Printer can accept jobs over the Internet using Internet Printing Protocol
