[9] Records moving pictures only in SP mode with Class6 SDHC cards. Digital stills can be recorded on both SD and SDHC cards.

SD/SDHC memory cards (128MB to 4GB) have been tested for the following brands: Panasonic, Toshiba, SanDisk, ATP.

Note that using other media may result in recording failure or data loss.

[10] SD/SDHC memory cards (128MB to 4GB) have been tested for the following brands: Panasonic, Toshiba, SanDisk.

Note that using other media may result in recording failure or data loss.

When using SD memory for video recording, we recommend using media with a speed of 10MB/sec. or greater.

[11] To record video, a microSDHC card with Class 4 or higher performance is required. microSD memory cards (256MB to 2GB) and microSDHC memory cards (4GB) have been tested for the following brands: Panasonic, Toshiba, SanDisk, ATP. Note that using other media may result in recording failure or data loss. For compatibility of memory cards, please consult an authorized JVC dealer.

[12] To record video, a microSDHC card with Class 6 or higher performance is required. microSDHC memory cards (4GB) have been tested for the following brands: Panasonic, Toshiba, SanDisk, ATP. Note that using other media may result in recording failure or data loss. For compatibility of memory cards, please consult an authorized JVC dealer.

[13] White Auto Exposure Bracketing is activated, the maximum still image size recordable will be 2592x1944 even if 3072x2048 is selected.
