HP Compaq nc6220 Business Notebook PC

The HP Compaq nc6220 Business Notebook PC provides a balance of mainstream performance, the latest technology and mobility combined with stability and reliability. The thin, light and stylish HP nc6220 provides powerful mobile computing, all day battery life (with optional travel battery) and enhanced security, making it the ideal choice for mobile professionals.

Very thin and light
Weighing a mere 2.13 kg with travel module or 2.26 kg with ultra slim MultiBay II drive and just 26.5 mm thin, the HP nc6220 offers mobile professionals highly portable powerful computing and wireless connectivity.

Enhanced security
The HP nc6220 comes with HP ProtectTools enhanced security features, such as integrated Smart Card Reader, optional TPM embedded security chip and multifactor authentication to protect your device, data and network connection.

All day mobile productivity
The HP nc6220 has a primary battery life of up to 4.5 hours, which can be doubled with the optional, uniquely designed travel battery for all day mobile power. The innovative ambient light sensor automatically adjusts the display brightness to suit surroundings, extending the battery life by up to 20%.

Unique features
The HP nc6220 includes features unique to the HP 'nc' series, such as HP ProtectTools, HP Client Management Solutions, long lifecycles, global availability and services, as well as common image, docking and accessories. This not only reduces IT complexity and ongoing lifecycle costs, but also makes deployment and maintenance easier.

Quality and reliability
A combination of reinforced composite material with in-mould laminate and magnesium alloy creates a scratch and dent resistant notebook built for rigorous mobile user environments. Extensive testing and certifications ensure best in class quality and reliability. The HP Mobile Data Protection System protects the hard drive from shock and vibration, reducing the risk of data corruption. HP Local Recovery Solution by Altiris enables quick recovery of data.

Optimised thin and light notebook delivering enhanced security and mobility features
