HP COMPAQ 6720S NOTEBOOK PC

Practical, 15.4-inch widescreen, Intel processors

HP recommends Windows Vista® Business

Make a good business decision

With its fresh new look, impressive combination of mobile office features, and a starting weight of only 5.5lbs, the HP Compaq 6720s is an excellent price-for-performance package.

Broaden your perspective

Select the right 15.4-inch diagonal WXGA display that best suits your needs -- choose between the anti-glare and the HP BrightView display. A BrightView display improves the brightness, contrast and clarity of your notebook's screen.

Technology in tune with your needs

Experience new levels of system responsiveness when running multiple applications and smarter battery performance designed to help extend mobility with Intel® Core™2 Duo Processor.[2] The optional DVD+/-RW SuperMulti DL LightScribe Drive[2] allows you to burn custom high-quality labels and artwork on to your disc.

Stay connected on the go

The HP Compaq 6720s helps you stay connected where you need to work by offering Wi-Fi Certified WLAN[4] options, so you can access your emails or the Internet at work, at home or on the road.

Integrated Bluetooth® wireless technology provides wireless short-range communication or connectivity between other Bluetooth devices.

HP Professional Innovations help you focus on your business

Built to protect. Multi-layered, customizable security solutions help defend your network, your applications, and your data. For example, the Device Access Manager for HP ProtectTools controls ports and removable storage devices on your system in order to prevent unauthorized users from transferring or removing your data.

Built to simplify. The integrated Secure Digital (SD) Card reader makes it easy to transfer files to other digital devices.

Built to last. With over 95,000 hours of testing, the HP Total Test Process helps ensure that your notebook will withstand a wide range of work environments. The HP DriveGuard helps protect your notebook from system failures and data loss caused by operational shock due to an accidental drop.

HP COMPAQ 6720S NOTEBOOK PC

HP recommends Windows Vista® Business

Operating system	**Preinstalled:** Genuine Windows Vista Business 32[1] Genuine Windows Vista® Business downgrade to Genuine Windows® XP Professional[1, 10] Genuine Windows Vista Home Basic 32[1] Genuine Windows XP Professional FreeDOS **Certified:** SuSe Linux Enterprise Desktop 10
Processor[2]	Intel® Core™2 Duo (up to 2.1-GHz, up to 3-MB L2 cache) Intel® Celeron® Processor (up to 2.0-GHz, 1-MB L2 cache)

1. Certain Windows Vista product features require advanced or additional hardware. See http://www.microsoft.com/windowsvista/getready/hardwarereqs.mspx and http://www.microsoft.com/windowsvista/getready/capable.mspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor. **2.** Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information **3.** Do not copy copy-right protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media. **4.** Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract. **5.** For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB (for XP) and 10GB (for Vista) of system disk is reserved for the system recovery software. **6.** Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by programs. **7.** Sold separately or purchased as an optional feature. **8.** Operates at a maximum of 533-MHz with Celeron processor. **9.** GM965 only, GL 960 has a max of 2048-MB. **10.** Windows Vista Business disk also included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order annually at least 25 customer systems with the same custom image.
