

HP COMPAQ 2710P NOTEBOOK PC

PRODUCTIVITY WITH A TWIST.

Ultra-thin convertible tablet in an innovative design

HP recommends Windows Vista™ Business

Total productivity—totally cool

Starting at only 3.7 lbs and 1.11" thin, the HP Compaq 2710p Notebook PC offers you the functionality of an ultra-light notebook *plus* the flexibility of an ultra-slim tablet.

Unique widescreen display and writing surface

A 12.1-inch diagonal widescreen Illumi-Lite display¹⁵ provides you with a slim and light notebook PC while extending your battery's run time by up to 60 minutes over a notebook with traditional LCD backlighting. The chemically-strengthened glass top will not wear down with repetitive use, resists the effects of "pooling," and can be cleaned with standard glass cleaners. The optional outdoor view display delivers a significantly better display appearance when working in bright light conditions.

Redefining what you can do on the go

With a dual-microphone array and optional integrated camera, enjoy video and web conferencing, video-enhanced instant messaging, and VoIP,⁴ and capture business card images that automatically convert to text in your favorite contact application. Use the HP 2700 Ultra-Slim Expansion Base with integrated DVD+/-RW drive³ as a

docking station in the office, or take it with you while on the go. Across the street or across the country, stay connected in more places with the optional HP Broadband Wireless.^{5,6} You also have the flexibility to add HP Broadband Wireless at a later date.

HP Professional Innovations help you focus on your business

Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications, and your data. The new Drive Encryption for HP ProtectTools encrypts all information on the hard drive volume so it becomes unreadable to an unauthorized person.

Built to simplify. Boost your productivity in low-light conditions while maximizing simplicity with the HP Night Light that shines directly on your keyboard.

Built to last. Reliable features such as HP DuraKeys, HP DuraFinish, full magnesium alloy enclosure, and HP 3D DriveGuard help your notebook go the distance.

HP COMPAQ 2710P NOTEBOOK PC

HP recommends Windows Vista™ Business

Operating system	Preinstalled: Genuine Windows Vista Business 32/64, ¹ Genuine Windows XP Tablet PC Edition 2005, FreeDOS; Supported: Genuine Windows Vista Enterprise, ¹ Genuine Windows 2000; Certified: SuSe Linux Enterprise Desktop 10
Processor²	Intel® Core™ 2 Duo Ultra Low Voltage
Chipset	Mobile Intel GM965
Memory¹⁴	DDR2 SDRAM, 667-MHz, two SODIMM slots supporting dual channel memory, 1024/2048 and 4096-MB when available. (operates at maximum 533-MHz with 667-MHz memory) Chipset supports 8 GB of system memory.
Hard drive(s)⁷	1.8" PATA 60/80/100-GB 4200 rpm, HP 3D DriveGuard
Removable media	Optional fixed 7-mm DVD+/-RW SuperMulti Drive available for HP 2700 Ultra-Slim Expansion Base
Display	12.1-inch diagonal Illumi-Lite, ¹⁶ WXGA UWVA with Digitizer (1280 x 800 and 16M colors), 12.1-inch diagonal Illumi-Lite, WXGA UWVA with Digitizer and Outdoor View (1280 x 800 and 16M colors), optional integrated 2mp camera
Graphics⁸	Mobile Intel GMA X3100, up to 384 MB of shared system memory
Audio	High Definition Audio, integrated speaker, stereo headphone/line out, stereo microphone in, integrated dual-microphone array
Wireless support^{4,5,6}	Optional HP ev2200 1xEV-DO and optional HP hs2300 HSDPA Broadband Wireless Module, Intel PRO/Wireless 802.11a/b/g/draft-n, a/b/g and Broadcom 802.11 a/b/g, Bluetooth™ 2.0, HP Wireless Assistant
Communications	Intel Gigabit Network Connection ⁹ (10/100/1000 NIC), HP Smart Power NIC, 56K v.92 modem
Expansion slots	ExpressCard/54 slot or integrated Smart Card Reader, Secure Digital slot
Ports and connectors	2 USB 2.0 ports, VGA, stereo microphone in, stereo headphone/line out, 1394a, power connector, RJ-11/modem, RJ-45/ethernet, docking connector for HP 2700 Ultra-Slim Expansion Base, secondary battery connector (supports 2710p Ultra Slim battery option)
Input device	Full-sized keyboard, pointstick, digital eraser pen with tether and clip
Manageability	Intel® Centrino® Pro Mobile Technology capable (select configurations), ¹² HP Backup and Recovery Manager, HP Client Manager Software, HP OpenView Radia Management Agent, HP Client Management Interface
Security	HP ProtectTools, TPM Embedded Security Chip 1.2, ¹³ HP Fingerprint Sensor, Symantec Norton Internet Security, optional Smart Card Reader, ¹¹ Kensington lock ¹¹
Dimensions (h x w x d)	1.11 in x 11.42 in x 8.35 in
Weight	Starting at weight: 3.7 lbs (weight will vary by configuration)
Power	6-cell (44 WWhr) Lithium-Ion battery, optional HP 2700 Ultra-Slim Battery, ¹¹ 65W HP Smart AC Adapter, HP Fast Charge ¹⁰
Expansion solutions¹¹	HP 2700 Ultra-Slim Expansion Base, HP External MultiBay II
Warranty	Limited 3-year; 1-year limited warranty on primary battery

1. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.mspx and www.microsoft.com/windowsvista/getready/capable.mspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.microsoft.com/windowsvista/comupgradeadvisor. 2. Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. 3. Do not copy copyright-protected materials. Intended for creation and storage of your original material and other lawful uses. Double layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media. 4. Wireless, internet, and VoIP require separately purchased service contract. Check with service provider for availability and coverage in your area. Available in select countries only. 5. The specifications for the 802.11n WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the PC to communicate with other 802.11n WLAN devices. 6. Wireless access point required and is not included. Availability of public wireless access points limited. 7. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB (for XP) and 10 GB (for Vista) of system disk is reserved for the system recovery software. 8. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by programs. 9. The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required. 10. HP Fast Charge recharges your primary battery up to 90% within 90 minutes when the system is off. HP Fast Charge does not apply to 9 cell primary and 12 cell Ultra Capacity batteries. 11. Sold separately or purchased as an optional feature. 12. Some functionality of Intel Centrino Pro, such as Intel Active management technology and Intel Virtualization technology, requires additional 3rd party software. Availability of future "virtual appliances" applications is dependent on 3rd party software providers. Compatibility of this generation of Centrino Pro technology-based hardware with future "virtual appliances" and Windows Vista is to be determined. 13. TPM module disabled where not permitted by law. 14. Operates at a maximum of 533-MHz with 667-MHz memory. 15. Results achieved with similarly configured notebook PCs both using 9-cell batteries. Results may vary with 3- and 6-cell batteries, loaded applications, features, and power management settings.
