

HP ProBook 4545s Notebook PC

Your business partner. Optimized for Windows® 7, this durable laptop is powered by AMD. Create graphics and save battery life. Share files. Gain easy-to-use security and multimedia tools¹ on a 39,6 cm (15.6") diagonal display.

HP recommends Windows® 7.

Protection inside and out.

The aluminum casing offers extended durability to keep up with mobile use. The smudge-resistant and wear-resistant HP DuraFinish keeps the metallic gray color looking polished.

The spill-resistant keyboard helps protect sensitive electronics and key components from minor spills with a thin layer of Mylar film under the keyboard.

Accidents happen. HP 3D DriveGuard² helps protect your laptop's hard drive against impact, bumps and drops so your data has enhanced protection.

Easy-to-use yet robust security features safeguard your data from unauthorized users. From requiring a fingerprint swipe to Face Recognition³, your notebook is protected.

Accomplish more with the right business tools.

Use discrete graphics to create brilliant visuals and your PC automatically switches to battery-saving mode when every day applications are used. AMD Dynamic Switchable Graphics makes it happen without adding to your To Do list⁴.

Alternatively, upgrade to the AMD Radeon Dual Graphics⁵ for the high-end 3D rendering processing performance you expect from two graphics processors running simultaneously.

Add edge to your presentations. Play, edit and create video and audio files with ArcSoft Total Media Suite.

Easily share files with colleagues using the USB 3.0 port.

Mix business with pleasure.

Watch training videos at work and enjoy your favorite flicks at home – all thanks to the pre-loaded multimedia software. Use the HDMI port to plug into a large display at home, while running a movie downloaded to your notebook⁶.

Face time counts. Gain enhanced communication with on-board HD Web Cam¹ for HD Videos and videoconferencing. The ArcSoft Total Media Suite can also be used to initiate your webcam and do personal photo editing and video recording. After a long day at work, relax to crisp tunes coming directly from your business notebook and SRS Premium Sound.
