

F110

FULLY RUGGED 11.6" TABLET

Large 11.6" LumiBond™ sunlight readable display
4th generation Intel® Core™ processor
Dual hot-swappable battery design
Optional integrated 4G LTE broadband wireless
802.11ac next generation WiFi
Optional 1D/2D imager barcode reader
Intel HD graphics 4400
MIL-STD 810G and IP65 certified
Industry-leading bumper-to-bumper warranty

4th Gen Intel Core Processor.

With the latest Intel Core i5 or Intel Core i7 processor, the F110 rugged tablet was designed for speed and efficiency. Clocking in at up to 2.1GHz and with Turbo Boost speeds up to 3.3GHz, the F110 has the power needed for the most demanding tasks.

Large 11.6" Display.

The F110 features a large 11.6" display utilizes our revolutionary LumiBond technology to achieve a display that is more readable, and offers better contrast and more crisp colors than any other rugged laptop display. The 11.6" widescreen display is ideally suited providing plenty of real estate to run Windows and your apps on.

Dual Hot-Swappable Batteries.

The F110's unique, hot-swappable dual-battery design allows for potentially infinite, uninterrupted battery life. This enables you to remove one of the two rechargeable batteries and replace it with a fresh battery without ever shutting down apps or your Windows OS.

Blazing Fast Wireless.

With new multi-carrier 4G LTE, you can easily switch carriers without changing hardware.¹ The F110 also now supports the next generation 802.11ac WiFi for up to three times faster throughput.

Designed to Capture.

With a built-in front HD webcam, an optional rear 5MP auto focus camera and an optional top 1D/2D imager bar code reader, the F110 is the ideal solution for capturing data.

Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every F110 rugged tablet.

Communications	Intel Dual Band Wireless-AC 7260 (802.11ac) Bluetooth (v4.0 class 1) Optional SiRFstarIV™ GPS Optional 4G LTE mobile broadband		

Specification subject to change without notice.

¹ Data plan required. Cellular data is available in the US on Verizon Wireless and AT&T networks. LTE is available in select markets. Check with your carrier for details. 4G LTE configuration must be ordered at time of purchase.

² Requires MIL-STD 461F 90W AC Adapter sold separately.

³ Computers configured with a 32-bit operating system can address up to 3GB of system memory. Only computers configured with a 64-bit operating system can address 4 GB or more of system memory.

⁴ Expansion slot factory installed and limited to one option. Subject to minimum purchase requirements.

⁵ Battery life testing conducted under BatteryMark 4.0.1. Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.

[†] For storage, 1GB = 1 billion bytes; actual formatted capacity less.

^{††} Weight varies by configuration and manufacturing process.

[‡] 3 year bumper-to-bumper limited warranty standard. For warranty terms and conditions visit www.getac.com
