Press Reviews

"Incipio has priced offGRID Express aggressively, and we were thoroughly impressed with its charging performance at that price. We'll see different design implementations and larger capacities in other iPhone 6 battery cases as time goes on, but most users won't need anything more than this. Though it's still early in the game, offGRID Express is the best iPhone 6 battery case option right now, and it won't be easy to top. It comes highly recommended." See full article [here](#)

"Incipio's offGRID Express is the most affordable Apple-authorized iPhone 6 Battery Case. See full article [here](#)
