

ZyXEL

Simple Video/Picture sharing with friends and family from your Smartphone or Tablet!

- Setup and view images, audio & video on smartphone or tablet - no need for a PC
- Easily share your camera's feeds with family & friends
- Share snapshots and videos of your camera feed on social media sites including Facebook and Twitter
- Built-in 802.11n wireless for access no matter where you are
- Infra-red LED lights to support night viewing

ZyXEL's IPC1165N allows for PC-free setup and use. All you need is your Apple iOS™ or Android™ powered smartphone or tablet to and Internet access to enjoy reliable, 24/7 surveillance.

Benefits

Easy Setup and Use

Setting up a home security surveillance camera using a PC used to take hours. ZyXEL's IPC1165N sets up easily in minutes without the need for a PC. Once the camera is set up, you can enjoy viewing and management of your camera through iSecurity+™, a free app that can be found in the Android™ Market or the Apple iOS™ App Store.

24/7 CloudEnabled™ Viewing

Want the ability to not only access your surveillance feeds, but also share them with friends and family, even when you are far away? 24/7 CloudEnabled™ viewing lets you and anyone you allow to access the IPC1165N from anywhere there is a wireless connection. You can share your camera feeds with friends and family through the cloud and toggle this feature on or off so that they can only see when you want them to.

Have Fun with Your Pictures/Videos

Through the iSecurity+™ app, you can now share your pictures and video with whomever you want. You can easily take snapshots or recordings on your smartphone or tablet, and upload them to social media sites including Facebook™, Twitter™, and Instagram™ for your friends and family to enjoy.

Crystal Clear Night Vision

Get a good view, no matter the time of day – or night. The IPC1165N features infra-red LED lights that automatically illuminate up to 30 feet in low-light conditions for guaranteed reliable 24/7 surveillance.
