

## 650TVL Pan-Tilt-Zoom Camera | 23x Optical Zoom | Extreme Weather Camera

### QD6523ZH

Survey a wide area of your surroundings or zoom in for more detail and feel the safety and control that a quality Q-See PTZ camera offers. This pan-tilt-zoom camera features a 360° horizontal rotation for a complete overview of the area as well as a 90° vertical tilt for a full overview of what's directly in front of the camera. With cruise and preset patterns, taking advantage of the camera's versatility is easy and convenient. Setup cruise patterns and ensure that the camera is always scanning through the most vital areas in your business. Or, assign presets so the PTZ continually checking your the front door, driveway, and front lawn of your home. Even an extreme weather doesn't keep this camera from protecting what you've worked hard for. This extreme weather camera has heating and cooling components built right into its housing. For extreme cold weather situations, the camera's built-in heater kicks in to prevent the lens from frosting up. In extremely hot weather situations, the camera's internal fan keeps the camera innards cool and functioning smoothly. No matter your need, a Q-See PTZ offers unmatched situational awareness.
