BDX2000

Blu-ray Disc Player

PRELIMINARY

Continuing Toshiba's commitment to high-definition content, the BDX2000 delivers amazing Full HD 1080p video and high-definition audio that bring movies to life on your HDTV.

With BD-Live™ (Profile 2.0) support and REGZA-LINK® (HDMI™-CEC), Toshiba's BDX2000 enables next generation connectivity in home entertainment while the smoked mirrored front panel adds a sophisticated touch to your home theater.

BDX2000

Blu-ray Disc Player - **PRELIMINARY**

- **Full HD 1080p/24 fps video output** provides an amazing cinema experience in the comfort of your own home
- **BD-Live™** opens up a world of online features, with a convenient SD Card Slot for storing saved content
- **AVCHD Playback** for HD playback of your home movies
- **REGZA-LINK® (HDMI™-CEC)** connects the BDX2000 and your HDTV for convenient two-way control with one remote
- **Support for enhanced audio formats from Dolby® TrueHD and DTS-HD Master Audio | Essential™** deliver the high-definition audio that completes the Blu-ray experience

Important Notes: This product does not play HD DVD discs. Blu-ray discs with high-definition content required for HD viewing. Viewing high-definition content and up-converting DVD content may require an HDCP capable DVI or HDMI™ input on your display device. Up-conversion of DVD content will result in near HD picture quality. Performance of interactive and/or network features may vary depending upon disc design or content, and may also require an always-on broadband internet connection. Additionally, firmware update may be required for some interactive and/or network features. Some features may require additional bandwidth. When using BD-Live™, certain content and services may require that you have an SD card or SDHC card with available storage capacity of at least 1GB inserted in the SD card slot of this player. Content and services through BD-Live are provided by third-parties and are subject to change or discontinuation without notice. Toshiba makes no warranties, representations, or assurances about the content, availability or functionality of third-party content or services. Some recordable media may not be supported. For Dolby® TrueHD and DTS-HD Master Audio playback, content encoded in Dolby® TrueHD and DTS-HD Master Audio format required. For 1080p/24 frames output, content that was encoded in 1080p/24 fps is required. Viewing 1080p/24 fps output requires an HD display capable of accepting a 1080p/24Hz signal. Because Blu-ray is a format that makes use of new technologies, certain disc, digital connection and other compatibility and/or performance issues are possible. If you experience such issues, please refer to www.tacp.toshiba.com for information on the availability of firmware updates that may resolve your problem, or contact Toshiba Customer Solutions. Some features subject to delayed availability. 1080p capable display required for viewing content in 1080p. Deep Color feature as specified in HDMI™ 1.3a requires compatible Deep Color capable HD display and/or device. Use of REGZA-LINK®, a feature based on HDMI™-CEC, requires an HDMI™-CEC compatible display device. Depending on the specifications of your display device, some or all REGZA-LINK® functions may not work even if your display device is HDMI-CEC compatible. Supported card types: SD cards: 8MB~2GB, SDHC cards: 8GB. Supported file types: JPEG, MP3, WMA, and AVCHD. Some cards or files may not be supported. Supported file types: JPEG, MP3, WMA, and AVCHD. Some cards or files may not be supported. While every effort has been made at the time of publication to ensure the accuracy of the information provided herein, product specifications, configurations, system/component/options availability are all subject to change without notice.
