

A Business Class PC that looks and performs in a class of its own

HP recommends Windows Vista® Business.

## HP Compaq dx2400 Business Desktop PC

The newly designed HP Compaq dx2400 Business Desktop PC is an affordable desktop computer for everyday business needs. It is built on a proven Intel chipset and processor technology with quality, reliability, and functionality all in a modern look and feel.

### **Practical and Stylish**

Newly designed with real metal surfaces, glossy finishes, and convenient front access to the latest technology in the PC industry today, the HP Compaq dx2400 PC is meant to be shown off, not hidden. This reliable desktop PC can enhance your business environment with its style while offering: flexible configurations backed by service and support professionals from HP and its network of third-party providers; efficiently designed chassis with engineered cooling and electrical sub-systems that support greater reliability and longer lifecycles; ample expansion capabilities so you can customize the performance of your PC.

### **Affordable business class PC**

The HP Compaq dx2400 Business Desktop PC is an affordable and reliable PC designed to help you move through your everyday business tasks. The compact microtower design fits easily into your work space and helps accommodate future upgrade and expansion needs. It is available with dual or quad core processors and 800MHz system memory, helps you complete daily tasks quickly and efficiently.

### **Easy-to-use technology**

A professional chassis design offers easy-to-access ports, slots and bays; available with pre-installed business applications so you can get started quickly and be productive the first time you boot up your new PC; optical drives and front USB 2.0 access provide a wide-range of digital media capabilities, convenience and fast data transfers; front and back audio ports offer convenience and flexibility; standard graphics are great for everyday needs, but if you need more, a PCI Express x16 expansion slot is available for the latest industry-standard graphic cards; keep your employees productive and protect your data with local recovery tools such as HP Backup and Recovery Manager.
