## THE LENOVO® THINKCENTRE® M78 DESKTOP

### A RELIABLE BUSINESS MACHINE WITH POWERFUL PERFORMANCE

The Lenovo ThinkCentre M78 is performance-oriented with features that speed-up processing and enhance user experience. Work faster with AMD next generation accelerated processing unit (APU) with up to 23%<sup>1</sup> CPU performance and 200%<sup>1</sup> graphic performance. Save time by starting the desktop faster with reduced Windows® start-up time.

Support performance with better IT management using DASH 1.1, which provides features to manage system health and power usage remotely. Protect your desktop against data theft and network security risks by controlling unauthorized use of USB storage devices using the option to disable USB ports. Secure applications, electronic transactions and online communication with TPM 1.2 hardware-based security to encrypt data and key information like passwords and digital certificates.

Run the desktop cool and quiet with the AMD Intelligent Cooling Engine. Use energy intelligently with the latest desktop power manager and 92% power efficiency PSU<sup>2</sup>. Optimize power utilization with the desktop being Cisco EnergyWise certified. Offering the performance, simplified IT management and power-saving features that you need, the M78 is a smart choice for your eco-system.

<sup>7</sup> The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3a/b for Gigabit Ethernet and does not connote actual operating speed of 1 GB/s. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.
