

# MC-CG885 Canister Vacuum

**OptiFlow Technology** A revolutionary concept in vacuum airflow technology, OptiFlow technology helps maintain a consistent volume of airflow through the dust bag, even as it becomes full.

**Powerful 12-Amp Motor**  
12-amp motor offers powerful cleaning performance.

**Electronic Performance Indicator**

Red Gauge indicates when the air flow is restricted by a full bag or blockage in the hose.

**HEPA Filter**

The HEPA filter captures small particles such as allergens, irritants and pollutants.

**Automatic Cord Reel**

A light touch activates the automatic cord rewind.

**4-Position Carpet Height Adjustment**

Adjust the setting to 1 of 4 positions for just about any carpet height.

**14" Cleaning Path**

A 14" wide nozzle lets you clean larger areas in less time.

**EZ On/Off Bare Floor Option On Handle**  
A convenient switch on the nozzle shuts off the agitator for safe bare floor cleaning.

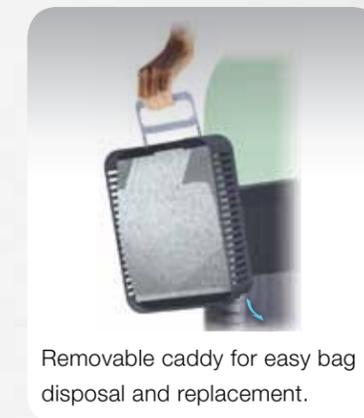

**360° Hose Swivel**  
The hose connection features a nimble swivel device that lets you clean in any direction without the hose getting twisted.

**OptiFlow Technology**

Vented double-wall design allows for optimum airflow.

Removable caddy for easy bag disposal and replacement.
