

CRIMPING MACHINE

NEW
GENERATION
virax

Viper P22+

Crimping is under control

LED indicator
at the end of each cycle.
Each cycle checked.

PC connection:
maintenance management

virax

Crimping capacity: Copper, Stainless Steel, PEX, Multilayer from 12 to 110* mm

*see detail by material

One of the lightest machines in its category**

**32 kN cordless

Micro-processor controlled system:

- Crimping confirmed by LED indicator (green or red).
- Battery charge level.
- Maintenance indicator. Warning at 29 000 cycles before machine is locked at 30 000 cycles.

Automatic return of the piston.

USB/PC connection:
Read numbers of cycles to anticipate maintenance (30 000 cycles).

NEW GENERATION
virax

Ergonomic Soft Touch handle:
Antislip grip for comfort and control.

14,4 V – 2,4 Ah battery:
Li-Ion technology for more power, more battery life and less weight.

Characteristics

DESCRIPTION	Power (kN)	Crimping capacity (mm)	Size (mm) without jaw	Kg	Ref.
Viper P22+ 14,4 V Delivered in plastic case with 2 batteries + 1 charger + 1 instruction manual	32 - 35	Copper: Ø 12 - 54 Stainless steel: Ø 12 - 54 PER/PEX: Ø 12 - 32 Multilayer: Ø 12 - 110	Length: 408 Height: 321 Width: 85	4,200 (with battery)	253620

Also find in our range:

Viper M20+ (18 kN, Ø 12 – 32 mm) with 14.4 V Li-Ion battery
Viper P30+ (32 – 35 kN, Ø 12 – 110 mm) corded 230 V
