

ScreenBeam Mini 2 Wireless Display Receiver (SBWD60A01)

With ScreenBeam Mini 2, you can enjoy your favorite videos, photos and movies on the best display in the house. Simply connect the tiny adapter to your HDTV and you can wirelessly display content from a compatible laptop, tablet, or smartphone. That means you can sit back and watch movies from Netflix, Hulu Plus, Amazon, or YouTube on your HDTV. Unlike media players that restrict you to specific apps and browsers, ScreenBeam Mini 2 lets you share virtually any local or online content from your device, including photos, documents, presentations, apps, and more. Whatever you see on your mobile device's display, you can mirror onto the HDTV.

- Wirelessly stream all the things you love, including movies, videos, photos, music, applications, web browsing, presentations, documents and more, directly to your big screen HDTV
- Perfect for home, office, schools, and traveling
- Peer to peer connection, no Wi-Fi network required
- Supports dual band (2.4GHz and 5GHz) Wi-Fi for faster performance and broader compatibility
- Compatible with millions of devices: Intel WiDi-ready, Wi-Fi Miracast Certified, Windows 8.1+, and Android 4.2+ devices
- Full 1080p30 HD video
- Ultra-low latency for the best possible experience
- Get set up in minutes... Everything you need is included in the box
