

ANTENNAS DIRECT® DB8e

The most powerful DTV antenna in the world—a star is born! With an extreme range of 70+ miles and unsurpassed gain of 17.4 dBi, this new Bowtie antenna has another capability that blows the competition right out of the water...it has the aiming flexibility of a CE installer's dreams...the specially designed brackets allow the antenna to turn in a 180 degree loop to target transmitting towers in any direction.

We've brought the tried and true Bowtie antenna design into the 21st Century with this patented design, which enables the DB8e to target the specific core DTV channels of today. The DB8e is the ideal antenna choice for rural and suburban installation challenges with pulling signals in through heavy foliage or roofing materials when installed in the attic. The design of the DB8e allows for easy installation options that are off limits to much larger antennas.

The DB8e comes with the Antennas Direct®, Inc. Lifetime Warranty, which assures you of its superior build quality and durability.

DB8e

- SKU# - DB8-E
