

## Beetcutter | BB-1250 / BB-2500 |

Holaras BB-1250 and BB-2500 beet cutters are the ideal solution for biogas plants to fill the installation with chopped beets. The specially developed cutting drum with knives at the bottom, ensures that the beets will be chopped and distributed in the right way.

This extremely solid and robust built beetcutters are suitable for the three point of the tractor, wheelloader or front loader coupling. In one operation it is possible to load, transport, cutting and dispensing the beets in a biogas installation or across the pit.

## Technical specifications
