BELKIN®

2-Port KVM Switch with Built-In Cabling

Control two computers using one monitor, keyboard and mouse

This Switch provides an affordable KVM solution that saves workspace while giving you control of two USB computers from one console. Its compact design—with 8-foot, built-in cabling—saves you time on installation, space on your desktop, and money you don't have to spend on cables and peripherals. The Switch includes such features as a manual port selector and software that makes switching ports easy. The unit supports high-quality video resolution of up to 2048x1536 through built-in, Belkin coaxial VGA cabling.

Benefits:

- Includes switching software (supported by Windows® OS only)
- Features an easy-access, manual port selector
- Supports multiple operating systems
- Requires no power supply
- Indicates port status with easy-to-read LEDs
- Installs easily
- Requires no additional cables
- Comes with a Belkin 3-Year Warranty and free technical support
