This instruction manual contains important information necessary for the proper assembly and safe use of the appliance.

Follow all warnings and instructions when using the appliance.

Safety Symbols
The symbols and boxes shown below explain what each heading means. Read and follow all of the messages found throughout the manual.

DANGER

DANGER: Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING

WARNING: Indicates an potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION: Indicates a potentially hazardous situation or unsafe practice which, if not avoided, may result in minor or moderate injury.

WARNING

FAILRE TO READ AND FOLLOW INSTRUCTIONS FOR LIGHTING CHARCOAL MAY RESULT IN SERIOUS PERSONAL INJURY AND OR PROPERTY DAMAGE.

WARNING

- Most surfaces on this unit are hot when in use. Use extreme caution. Keep others away from unit. Always wear protective clothing to prevent injury.
- Keep children and pets away.
- Do not move this unit during operation.
- Never substitute gasoline, kerosene or alcohol for charcoal starter. In some states, the use of charcoal starter is prohibited by law. In this case, paraffin-based starter cubes can be substituted for charcoal starter. Never use charcoal starter fluid with an electric starter.

CAUTION

Some parts may contain sharp edges. Wear protective gloves if necessary.
Read and follow all safety statements, warnings, assembly instructions and use & care directions before attempting to assemble and cook.

WARNING

CARBON MONOXIDE HAZARD
Burning charcoal inside can kill you. It gives off carbon monoxide, which has no odor. NEVER burn charcoal inside homes, vehicles or tents.
NEVER LEAVE FIRE UNATTENDED!
Do not allow small children near flame. Hot embers can fly out in breezy conditions. Adequate fire extinguishing material should be readily available.

WARNING

All surfaces can be hot during use. Use protection as required to prevent burning.
Do not use this unit on or near combustible surfaces or structures such as wood decks, dry leaves or grass, vinyl or wood siding, etc.
SEE OWNERS MANUAL FOR IMPORTANT SAFETY INFORMATION.

CAUTION

For residential use only. Do not use for commercial cooking.
PREPARING TO USE YOUR GRILL

Before cooking with your grill, the following steps should be closely followed to both cure the finish and season the interior steel. Failure to properly follow these steps may damage the finish and/or impart metallic flavors to your first foods.

- Brush all interior surfaces including grills and grates with vegetable cooking oil.
- Build a small fire on the fire grate, being sure not to lay coals against the walls.
- Close lid, position dampers at approximately one quarter open. This burn should be sustained for at least two hours. Begin increasing the temperature by opening the dampers halfway and adding more charcoal. Your grill is now ready for use.

Rust can appear on the inside of your grill. Maintaining a light coat of vegetable oil on the interior surfaces will aid in the protection of your grill. Exterior surfaces of the grill may need occasional touch up. We recommend the use of commercially available black high temperature spray paint. NEVER PAINT THE INTERIOR OF THE GRILL!

Please see information regarding Uncoated Cast Iron Grates below.

First Time Use:
Before using a cast iron grate or other cast iron cooking tool, wash it thoroughly with a mild dishwashing liquid to remove the protective wax coating applied for shipping. Rinse with hot water and dry completely with a soft cloth or paper towel. NEVER ALLOW TO DRAIN DRY OR WASH IN A DISHWASHER. Now season the grates to prevent rust and sticking.

Seasoning:
A solid vegetable shortening is recommended for the initial seasoning. Spread a thin coating of solid vegetable shortening over the entire surface, including all corners, with a paper towel. Do not use salted fats such as butter or margarine.

Preheat grill for 15 minutes; carefully place grates in the grill. Allow the grill to heat grates for 1 to 1 ½ hours. Allow the fire to burn out on its own, and leave cooking grates in grill until they are cool. Your cast iron cooking grates are now ready to use.

To Prevent Rusting:
Re-season your grates frequently, particularly when new. If rust occurs, it is an indication that the grates have not been seasoned enough or the seasoning has been burned off. Clean with a heavy brush like Char-Broil’s Brush Hawg. Reapply vegetable shortening and heat as indicated above to re-season the grates.

Maintenance:
Do not do a burn-off after you grill, but rather leave the cooking residues on the grates to keep a protective coating on the cast iron. Do a burn-off just before you grill. The more you use your cast iron grates, the easier the maintenance will be.

Store in a dry place. If you store your grates for an extended period of time, grease very lightly with vegetable shortening, then wipe dry with a paper towel.

GRILLING

Charcoal is recommended, however, wood or a combination of both may be used as the fuel source for grilling with the fuel source placed and ignited on the fire grate. Do not build too large of a fire. We recommend starting a fire with no more than 4 pounds of charcoal (approximately 60 briquettes) and adding more as needed during cooking. After allowing the fire to burn down, place the cooking grate on the unit. Failure to read and follow instructions for lighting charcoal may result in serious personal injury and/or property damage.

GRILL MAINTENANCE

Frequency of clean up is determined by how often the grill is used. Make sure coals are completely extinguished before cleaning inside of the unit. Thoroughly rinse with water and allow to air dry before using again. Wipe out the interior of the unit with a cloth or paper towels.

When finished cooking, and the unit has adequately cooled, clean out all remaining ashes. Ashes collect moisture, which can lead to premature rusting and decay. Periodically coating the interior surfaces with vegetable oil will aid in the protection of your unit. Also, occasional touch up of the exterior paint will be required. Black, high-temperature spray paint is recommended. NEVER PAINT THE INTERIOR OF THE UNIT.

Cooking Surface: If a bristle brush is used to clean any of the grill cooking surfaces, ensure no loose bristles remain on cooking surfaces prior to grilling. It is not recommended to clean cooking surfaces while grill is hot.
Building Your Fire

1.) Stack charcoal briquettes or wood into a pyramid-shaped pile on top of the charcoal grate. We recommend using 4 pounds (approximately 60 briquettes) to start your fire, adding more as needed.

2.) If using lighter fluid, saturate the charcoal briquettes with lighter fluid and let it soak in for approximately 5 minutes. If using a chimney starter, electric starter, or other type of fire starter, light your fire according to the manufacturer’s instructions.

3.) After allowing the lighter fluid to properly soak in, light the pile of briquettes in several locations to ensure an even burn. **Always light the fire with the grill lid open.** Leave lid open until briquettes are fully lit. Failure to do this could trap fumes from charcoal lighter fluid in grill and may result in a flash fire when lid is opened.

4.) Never add charcoal lighter fluid to hot or warm coals as flashbacks may occur causing injury.

5.) You are ready to begin cooking when the pile of briquettes ashes over and produces a red glow (approximately 12 – 15 minutes).

6.) Depending on your cooking method, either leave the briquettes in a pile or spread evenly across the charcoal grate using a long-handled poker.

*Always use caution when handling hot coals to prevent injury.*

Know When Your Fire is Ready

Successful charcoal grilling depends on a good fire. The general rule for knowing when your coals are ready for grilling is to make sure that 80 percent or more of the coals are ashy gray. If you have less than that, the coals are not ready, and if all of them are glowing red hot, the fire is probably too hot. Here are a few steps you can take to adjust the temperature of your fire:

- If it is too hot, spread the coals out a bit more, which makes the fire less intense.
- Raise or lower the adjustable charcoal grate.
- Partially close the vents in the grill, which reduces the amount of oxygen that feeds the fire.
- Use the indirect grilling method, with coals to either side of a drip pan and the food over the pan rather than directly over the coals.
- In the event of a severe flare-up, spray the flames with water from a squirt bottle. Be careful, spraying with water tends to blow ashes around and make a mess.
- Add briquettes 2 or 3 at a time to increase the burn time. Allow 10 minutes for coals to ash over before adding more.

### THE HEAT OF THE COALS

Direct and Indirect Grilling

Direct Grilling - For most grilling, the ignited coals are spread in a single layer under the food. This is called direct grilling and is appropriate for relatively quick-cooking items such as hamburgers, steaks and most seafood. The single layer of coals emits even, steady heat, whether the grill lid is open or closed, and represents the way most people grill. For more control, pile some of the coals on one side of the grill where they will emit intense heat. You can move the food around on the grill, setting it over the very hot coals when you want to sear it or when a thick piece needs to cook a little more quickly. You can also use the adjustable charcoal grate and dampers to control the temperature in your grill.

Indirect Grilling - For items that take longer to cook, you will want to use indirect grilling. This method is for long, slow cooking in a covered grill. For indirect cooking, the coals are piled two or three coals deep on one side of the grill, or divided and piled on two sides. This leaves an empty space next to the coals or between them. Food cooked over indirect heat is often started over direct heat and then moved to the cooler (empty) part of the grill for even, slow cooking. To make the heat as even as possible, construct two piles of coals. It is common to place a metal drip pan in the empty space beside or between the coals, which is filled with water, wine, beer, broth, or a combination. Place the food directly over the drip pan. This injects a little extra moisture into the cooking environment and also catches dripping juices, which makes clean-up a little easier and reduces the possibility of flare-ups. (Remember to keep a spray bottle filled with water on hand to extinguish any flare-ups.) Once you get used to the indirect method, you may prefer to use it for more grilling tasks. Although it may take a little longer, it is an excellent cooking method and a sure way to prevent the food from burning and to promote even cooking.

Grilling with Wood Chips/Wood Chunks
For a more robust smoke flavor while using charcoal briquettes or lump charcoal, try adding wood chips or several wood chunks to the fire. Wood chunks are available in a variety of natural flavors, and can be used alone or in addition to charcoal. As a general rule, any hardwood that bears a fruit or nut is suitable for cooking. However, different woods have very different tastes. Experiment with different woods to determine your personal favorite, and always use well-seasoned wood. Green or fresh-cut wood can turn food black, and tastes bitter.

Our Recommendations:
Chicken - Alder, Apple, Hickory, Mesquite, Sassafras, Grapevines
Beef - Hickory, Mesquite, Oak, Grapevines
Pork - Fruitwoods, Hickory, Oak, Sassafras
Lamb - Fruitwoods, Mesquite
Veal - Fruitwoods, Grapevines
Seafood - Alder, Mesquite, Sassafras, Grapevines
Vegetables – Mesquite

LIMITED WARRANTY

This warranty only applies to units purchased from an authorized retailer. Manufacturer warrants to the original consumer-purchaser only that this product shall be free from defects in workmanship and materials after correct assembly and under normal and reasonable home use for the periods indicated below beginning on the date of purchase*. The manufacturer reserves the right to require that defective parts be returned, postage and or freight pre-paid by the consumer for review and examination.

<table>

</tr>
</thead>
<tbody>
<tr>
<td>All Parts</td>
<td>90 days from date of purchase*</td>
<td>PERFORATION, MANUFACTURING, AND MATERIAL DEFECTS ONLY</td>
</tr>
</tbody>
</table>

*Note: A dated sales receipt WILL be required for warranty service.

The original consumer-purchaser will be responsible for all shipping charges for parts replaced under the terms of this limited warranty.

This limited warranty is applicable in the United States and Canada only, is only available to the original owner of the product and is not transferable. Manufacturer requires proof of your date of purchase. Therefore, you should retain your sales slip or invoice. Registering your product is not a substitute for proof of purchase and the manufacturer is not responsible for or required to retain proof of purchase records.

This limited warranty applies to the functionality of the product ONLY and does not cover cosmetic issues such as scratches, dents, corrosions or discoloring by heat, abrasive and chemical cleaners or any tools used in the assembly or installation of the appliance, surface rust, or the discoloration of stainless steel surfaces. **RUST is not considered a manufacturing or materials defect.**

This limited warranty will not reimburse you for the cost of any inconvenience, food, personal injury or property damage.

ITEMS MANUFACTURER WILL NOT PAY FOR:
1. Shipping cost, standard or expedited, for warranty and replacement parts
2. Service calls to your home.
3. Repairs when your product is used for other than normal, single-family household or residential use.
4. Damage, failures, or operating difficulties resulting from accident, alteration, careless handling, misuse, abuse, fire, flood, acts of God, improper installation or maintenance, installation not in accordance with electrical or plumbing codes, or use of products not approved by the manufacturer.
5. Any food loss due to product failures or operating difficulties.
6. Replacement parts or repair labor costs for units operated outside the United States or Canada.
7. Pickup and delivery of your product.
8. Repairs to parts or systems resulting from unauthorized modifications made to the product.
9. The removal and/or reinstallation of your product.

DISCLAIMER OF IMPLIED WARRANTIES and LIMITATION OF REMEDIES

Repair or replacement of defective parts is your exclusive remedy under the terms of this limited warranty. In the event of parts availability issues, the manufacturer reserves the right to substitute like or similar parts that are equally functional.

Manufacturer will not be responsible for any consequential or incidental damages arising from the breach of either this limited warranty or any applicable implied warranty, or for failure or damage resulting from acts of God, improper care and maintenance, grease fire, accident, alteration, replacement of parts by anyone other than Manufacturer, misuse, transportation, commercial use, abuse, hostile environments (inclement weather, acts of nature, animal tampering), improper installation or installation not in accordance with local codes or printed manufacturer instructions.

THIS LIMITED WARRANTY IS THE SOLE EXPRESS WARRANTY GIVEN BY THE MANUFACTURER. NO PRODUCT PERFORMANCE SPECIFICATION OR DESCRIPTION WHEREVER APPEARING IS WARRANTED BY MANUFACTURER EXCEPT TO THE EXTENT SET FORTH IN THIS LIMITED WARRANTY. ANY IMPLIED WARRANTY PROTECTION ARISING UNDER THE LAWS OF ANY STATE, INCLUDING IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, IS HEREBY LIMITED IN DURATION TO THE DURATION OF THIS LIMITED WARRANTY.

Neither dealers nor the retail establishment selling this product has any authority to make any additional warranties or to promise remedies in addition to or inconsistent with those stated above. Manufacturer's maximum liability, in any event, shall not exceed the purchase price of the product paid by the original consumer.

NOTE: Some states do not allow an exclusion or limitation of incidental or consequential damages, so some of the above limitations or exclusions may not apply to you. This limited warranty gives you specific legal rights as set forth herein. You may also have other rights which vary from state to state. In the state of California only, if refinishing or replacement of the product is not commercially practicable, the retailer selling this product or the Manufacturer will refund the purchase price paid for the product, less the amount directly attributable to use by the original consumer-purchaser. In addition, in the state of California only, you may take the product to the retail establishment selling this product in order to obtain performance under this limited warranty.

If you wish to obtain performance of any obligation under this limited warranty, you should write to:
Consumer Relations
P. O. Box 1240
Columbus, GA 31902-1240

Consumer returns will not be accepted unless a valid Return Authorization is first acquired. Authorized returns are clearly marked on the outside of the package with an RA number and the package is shipped freight/postage pre-paid. Consumer returns that do not meet these standards will be refused.

... 1 HARDWARE BAG

... 1 ASSEMBLY MANUAL, ENGLISH
1. First, pick a suitable location to work. Open the carton and slit the corners. This will give you a protective surface upon which to start the assembly. During assembly, refer to page 10 for hardware identification.

   Stand bottom assembly on end. **Attach Legs with Caster Sockets to right end** using two 1/4-20x2” Machine Screws and 1/4-20 Flange Nuts per leg. **Do not fully tighten Screws until Step 5 is complete.** Turn assembly upside-down to attach remaining two Legs (without Caster Sockets) on left end.

2. With the aid of a helper, turn the bottom of the Shelf so that the flange is up, and attach to inside holes near ends of Legs using four 1/4-20x2” Machine Screws and 1/4-20 Flange Nuts. **Do not fully tighten Screws until Step 5 is complete.**
3 With the Grill positioned as shown below, slide the Locking Caster (with Tab) into the insert in the left front Leg. Slide the remaining Caster into the insert in the left rear Leg. Note that when your grill is placed upright - the casters will be on the RH side of the grill.

4 Insert Axle Bolt into Wheel. Be sure that the wheel bushing is inserted into the wheel. Insert axle bolt in end of rear leg and secure with Large Hitch Pin. Repeat this procedure to attach Wheel to Front Leg. With help from an assistant - carefully turn the grill over to its upright position.
5 Attach two Side Shelf Trays to each set of Legs using eight 1/4-20x2" Machine Screws and 1/4-20 Flange Nuts per Tray.  
Start at the holes closest to the Grill and work outward.  
NOW FULLY TIGHTEN ALL SCREWS FROM PREVIOUS STEPS.  
Insert both Side Shelf Boards into the Trays.

6 Insert one end of Lid Stop wire into hole on side of Grill Bottom. With the aid of a helper, position Grill Lid so that opposite end of Lid Stop can be inserted into hole in side of Grill Lid. Repeat procedure on the left side of Grill. Helper should continue to hold Lid in position until secured to Grill Bottom in next step.
While your helper holds the Grill Lid in position, secure Lid to Hinge on Grill Bottom using eight #10-24x1/2" Machine Screws and #10-24 Flange Nuts.

Attach Spacers and Handle to Grill Lid using two 1/4-20x3 1/4" Machine Screws, 1/4" Insulated Washers, and 1/4-20 Flange Nuts.
9 Insert **Vent Knob** into side of Grill Lid from the outside. Inside the Grill Lid, slide a **Vent Plate** onto the Knob stud followed by a **Spring** and a **#10-24 Hex Nut**. Tighten just enough to allow Vent to slide freely from side to side.

10 Attach the **Logo Plate** by inserting the two pins into the small holes on the front of the Grill Lid. From the inside of the Lid, press the **Logo Plate Clips** onto the pins until they are snug against the Lid.
11 Install **Temperature Gauge** by placing the stem through the large hole in front of the Grill Lid. Attach the nut provided until snug against Lid.

12 Attach **Ash Door Frame** to front of Grill Bottom using four #10-24x1/2" Flat-head Machine Screws and Flange Nuts.
13 Attach Ash Door to Frame using two Hinge Pins and Small Hitch Pins.

14 Slide Ash Drawer into front of Grill Bottom.
15 Attach two Fire Grate Hangers to Fire Grate (hooks point inward toward Grate). Lower into Grill Bottom and hang from Tabs on each side.

16 Place Cooking Grates into Grill Bottom. Use the Grate Lifting Tool provided to lift hot Cooking Grates.
HARDWARE LIST

Hardware is shown actual size. You may have spare hardware after assembly is complete.

- **Insulated Washer** Qty: 2
- **1/4-20 Flange Nut** Qty: 30
- **#10-24 Flange Nut** Qty: 12
- **#10-24 Hex Nut** Qty: 2
- **Vent Spring** Qty: 2
- **Large Hitch Pin** Qty: 2
- **Small Hitch Pin** Qty: 2
- **Logo Plate Clip** Qty: 2
- **Handle Spacer** Qty: 2
- **Axle Bolt** Qty: 2
- **1/4-20 x 3 1/4" Machine Screw** Qty: 2
- **1/4-20 x 2" Machine Screw** Qty: 28
- **Hinge Pin** Qty: 2
- **#10-24 x 1/2" Flat-Head Machine Screw** Qty: 4
- **#10-24 x 1/2" Machine Screw** Qty: 8

**WARNING**

MOST SURFACES ON THIS UNIT ARE HOT WHEN IN USE. USE EXTREME CAUTION. KEEP OTHERS AWAY FROM UNIT. ALWAYS WEAR PROTECTIVE CLOTHING TO PREVENT INJURY.
