

RIPJAWS SV710
Virtual 7.1 Surround USB Gaming Headset

Virtual 7.1 surround sound through certified Dolby Pro Logic IIx technology, dual 50mm neodymium audio drivers, dual-mic noise cancellation ENC microphone, padded suspension headband, circumaural ear cup design, and in-line volume control.

Listen to your games come alive on the RIPJAWS SV710 virtual 7.1 surround sound gaming headset.

Virtual 7.1 Surround Sound with Dolby Pro Logic IIx

Enjoy an immersive virtual 7.1 surround sound experience like no other, powered by dual 50mm audio drivers and certified Dolby Pro Logic IIx technology.

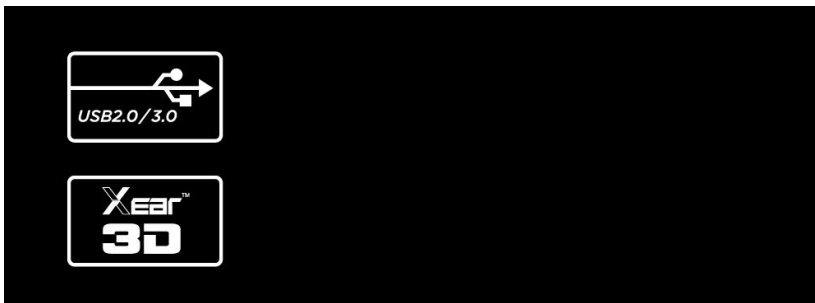

Retractable Environmental Noise Cancellation (ENC) Mic

A specially designed dual microphone setup clearly distinguishes between noise and voice and reduces background noise up to 40dB for crystal clear voice communication.

Padded Suspension Headband and Circumaural Ear Cup Design

Delivers luxurious comfort and enhanced noise isolation for long gaming sessions or movie marathons.

USB Powered Surround Sound

Designed with a USB connection, immerse yourself in an expansive gaming environment, without the need for a separate sound card.

Xear3D High Precision Positional Audio

Immerse yourself in high-precision positional audio with the latest Xear3D technology. Enjoy games, movies, and music like never before.

In-Line Audio Control

Integrated microphone mute and large volume buttons gives you instant and accurate control over volume levels.

Full Feature Driver Software

10-band EQ, audio profile control, per-channel surround sound speaker control, and other features offers full control of customization.
